

# **Journal of Water Supply: Research and Technology—AQUA**

A Journal of the International Water Association

volume 56 | issue 4 | June 2007

## **Contents**

- 217 Pilot scale testing of biofilter post-treatment of MIEX<sup>®</sup> treated water  
**L. R. Zappia, B. Warton, M. Alessandrino, D. Scott, J. T. Wylie, A. Heitz, B. Hiller, D. Masters, P. Nolan, P. Thiel, R. I. Kagi, C. A. Joll and P. D. Franzmann**
- 233 A new theoretical analysis on organizing principles of water supply networks  
**L. H. Chai and H. B. Li**
- 245 Effect of solar water disinfection (SODIS) on model microorganisms under improved and field SODIS conditions  
**Simon Dejung, Ivan Fuentes, Gabriela Almanza, Ruth Jarro, Lizeth Navarro, Gina Arias, Evelin Urquieta, Abraham Torrico, Wilma Fenandez, Mercedes Iriarte, Christof Birrer, Werner A. Stahel and Martin Wegelin**
- 257 Application of activated zeolite in the advanced treatment of potable water  
**Changsheng Peng and Hong Meng**
- Practical Papers**
- 263 Spatial and seasonal evolution of trihalomethanes in water distribution systems in Lebanon  
**Lucy Semerjian, John Dennis and George Ayoub**
- 275 Feasibility of fog water collection: a case study from Oman  
**Sabah A. Abdul-Wahab, Hilal Al-Hinai, Khalid A. Al-Najar and Mohammed S. Al-Kalbani**
