

Hydrology Research

An International Journal

Contents

Historical and palaeofloods in Earth's history

- Editorial: Historical and palaeofloods in Earth's history
Neil Macdonald and Jürgen Herget 199
- Historic floods in the city of Prague – a reconstruction of peak discharges for 1481–1825 based on documentary sources
L. Elleder, J. Herget, T. Roggenkamp and A. Nießen 202
- Reassessing flood frequency for the River Trent through the inclusion of historical flood information since AD 1320
Neil Macdonald 215
- A new methodological protocol for the use of dendrogeomorphological data in flood risk analysis
A. Díez-Herrero, J. A. Ballesteros-Cánovas, J. M. Bodoque and V. Ruiz-Villanueva 234
- Middle Holocene palaeoflood extremes of the Lower Rhine
Willem H. J. Toonen, Michiel M. de Molenaar, Frans P. M. Bunnik and Hans Middelkoop 248
- Paleoflood marks in sandur morphometry as the result of the glacier surge (NW Poland)
Joanna E. Szafraniec 264
- Eolian and fluvial sedimentation in the southwestern Sinai Mountains, Egypt: a record of flash floods during the late Pleistocene
Jörg Völkel, Jörg Grunert, Matthias Leopold, Kerstin Hürkamp, Juliane Huber and Andrew Murray 281
- Obstacle marks as palaeohydraulic indicators of Pleistocene megafloods
Jürgen Herget, Thomas Euler, Thomas Roggenkamp and Julian Zemke 300

Research Papers

- Distributed conceptual modelling in a Swedish lowland catchment: a multi-criteria model assessment
Sebastian Wrede, Jan Seibert and Stefan Uhlenbrook 318
- Parameter sensitivity of a watershed-scale flood forecasting model as a function of modelling time-step
Fiachra O'Loughlin, Michael Bruen and Thorsten Wagener 334
- Sampling rainfall events: a novel approach to generate large correlated samples
Siao Sun, Soon-Thiam Khu and Slobodan Djordjević 351
- Prediction of longitudinal dispersion coefficient using laboratory and field data: relationship comparisons
Z. Ahmad 362
- Downscaling technique uncertainty in assessing hydrological impact of climate change in the Upper Beles River Basin, Ethiopia
Girma Yimer Ebrahim, Andreja Jonoski, Ann van Griensven and Giuliano Di Baldassarre 377
