

Hydrology Research

An International Journal

Contents

Editorial: New category of Invited Papers <i>Ian G. Littlewood and Chong-Yu Xu</i>	1
Invited Paper: Reconciling hydrology with engineering <i>Demetris Koutsoyiannis</i>	2
The effect of spatially uniform and non-uniform precipitation bias correction methods on improving NEXRAD rainfall accuracy for distributed hydrologic modeling <i>Kwangmin Kang and Venkatesh Merwade</i>	23
Analytical solution of a kinematic wave approximation for channel routing <i>P. Reggiani, E. Todini and D. Meißner</i>	43
Overcoming the challenges of using a rainfall–runoff model to estimate the impacts of groundwater extraction on low flows in an ephemeral stream <i>K. M. Ivkovic, B. F. W. Croke and R. A. Kelly (née Letcher)</i>	58
Reducing uncertainty in the calibration and validation of the INCA-N model by using soft data <i>J. Randall Etheridge, Ahti Lepistö, Kirsti Granlund, Katri Rankinen, François Birgand and Michael R. Burchell II</i>	73
Effect of temperature on streambed vertical hydraulic conductivity <i>Weihong Dong, Gengxin Ou, Xunhong Chen and Zhaowei Wang</i>	89
Simulating the hydrologic response of a semiarid watershed to switchgrass cultivation <i>Justin C. Goldstein, Aondover Tarhule and David Brauer</i>	99
Frequency analysis of seasonal extreme precipitation in southern Quebec (Canada): an evaluation of regional climate model simulation with respect to two gridded datasets <i>Loubna Benyahya, Philippe Gachon, André St-Hilaire and René Laprise</i>	115
An assessment of the skill of downscaled GCM outputs in simulating historical patterns of rainfall variability in South Africa <i>D. A. Hughes, S. Mantel and T. Mohobane</i>	134
Using radar altimetry to update a large-scale hydrological model of the Brahmaputra river basin <i>Flemming Finsen, Christian Milzow, Richard Smith, Philippa Berry and Peter Bauer-Gottwein</i>	148
