Contents

Effect of bed roughness on 1-D entropy velocity distribution in open channel flow
Michele Greco

Decomposition–coordination model of reservoir group and flood storage basin for real-time flood control operation
Benyou Jia, Ping'an Zhong, Xin Yu Wan, Bin Xu and Juan Chen

Regionalization of sediment rating curve for sediment yield prediction in ungauged catchments
Sokhuy Heng and Tadashi Suetsugi

Modeling probabilistic radar rainfall estimation at ungauged locations based on spatiotemporal errors which correspond to gauged data
Shiang-Jen Wu, Ho-Cheng Lien, Chih-Yuang Hsu, Che-Hao Chang and Jhih-Cyuan Shen

Growth and accumulation of heavy metals in turnip (Brassica rapa) irrigated with different concentrations of treated municipal wastewater
Tabassum Parveen, Athar Hussain and M. Someshwar Rao

Local vs. external training of neuro-fuzzy and neural networks models for estimating reference evapotranspiration assessed through k-fold testing
Jalal Shiri, Pau Marti, Amir Hossein Nazemi, Ali Ashraf Sadraddini, Ozgur Kis, Gorka Landers and Ahmad Fakhari Fard

Evaluation of TRMM multi-satellite precipitation analysis (TMPA) in a mountainous region of the central Andes range with a Mediterranean climate
Lina Mabel Castro, Marcelo Miranda and Bonifacio Fernandez

Water budget analysis of small forested boreal watersheds: comparison of Sphagnum bog, patterned fen and lake dominated downstream areas in the La Grande River region, Quebec
Simon Tarthoff, Andre St-Hilaire, René Roy, Monique Bernier and Serge Payette

Regional low flow analysis in Sefidrood Drainage Basin, Iran using principal component regression
Kazem Nosrati, Gregor Laaha, Seyed Ali Sharifnia and Mojtaba Rahimi

Introducing surface sampling threshold factor for suspended sediment transport: model development using Sri Lankan tropical highland river basins
Sandun Illangasinghe and Tilak Hewawasam

Acid mine drainage in semi-arid regions: the extent of the problem in the waters of reservoirs in the Iberian Pyrite Belt (SW Spain)
M. Santisteban, J. A. Grande, M. L. de la Torre, T. Valente and J. C. Geron

The effects of conversion of tropical rainforest to rubber plantation on splash erosion in Xishuangbanna, SW China
Wenjie Liu, Qinpu Luo, Jintao Li, Pingyuan Wang, Hongjun Lu, Wenyao Liu and Hongmei Li
