

# Hydrology Research

*An International Journal*

## Contents

### *Challenging hydrological theory and practice*

- Editorial: Challenging hydrological theory and practice  
*N. Kettridge, C. Bradley, D. M. Hannah and S. Krause* 543
- Hydrology with impact: how does hydrological science inform decision-makers?  
*Glenn Watts* 545
- Water governance challenges presented by nanotechnologies: tracking, identifying and quantifying nanomaterials (the ultimate disparate source) in our waterways  
*Iseult Lynch* 552
- A novel approach for designing large-scale river temperature monitoring networks  
*F. L. Jackson, I. A. Malcolm and David M. Hannah* 569
- Acoustic Doppler Current Profiler measurements near a weir with fish pass: assessing solutions to compass errors, spatial data referencing and spatial flow heterogeneity  
*Thomas Kriechbaumer, Kim Blackburn, Nick Everard and Monica Rivas Casado* 591
- Insights gained from four component hydrograph separation  
*A. N. Mandeville* 606
- Scottish snow cover dependence on the North Atlantic Oscillation index  
*Michael Spencer and Richard Essery* 619
- Reversing hydrology: quantifying the temporal aggregation effect of catchment rainfall estimation using sub-hourly data  
*A. Kretzschmar, W. Tych, N. A. Chappell and K. J. Beven* 630
- The application of a drought reconstruction in water resource management  
*A. T. Lennard, N. Macdonald, S. Clark and J. M. Hooke* 646
- Use of very high resolution climate model data for hydrological modelling: estimation of potential evaporation  
*Alison C. Rudd and Alison L. Kay* 660
