

Hydrology Research

An International Journal

volume 50 | issue 6 | December 2019

Contents

Hydrology: advances in theory and practice

- 1463 Editorial: Hydrology: advances in theory and practice
Nevil W. Quinn
- 1464 A global hydrology research agenda fit for the 2030s
Robert L. Wilby
- 1481 How to make advances in hydrological modelling
Keith Beven
- 1495 Proposal of the 'extreme rank plot' for extreme value analysis: with an emphasis on flood frequency studies
Anthony Hammond
- 1508 Revising the BFIHOST catchment descriptor to improve UK flood frequency estimates
Adam Griffin, Andy Young and Lisa Stewart
- 1520 Fully distributed hydrological modelling for catchment-wide hydrological data verification
D. Ocio, T. Beskeen and K. Smart
- 1535 Integration of hillslope hydrology and 2D hydraulic modelling for natural flood management
Barry Hankin, Peter Metcalfe, Keith Beven and Nick A. Chappell
- 1549 Regional rainfall response to the North Atlantic Oscillation (NAO) across Great Britain
Harry West, Nevil Quinn and Michael Horswell
- 1564 Insights into rainfall undercatch for differing raingauge rim heights
Katie Muchan and Harry Dixon
- 1577 Hydrological modelling of climate change impacts on river flows in Siberia's Lena River Basin and implications for the Atlantic Meridional Overturning Circulation
C. E. Hudson and J. R. Thompson

British
Hydrological
Society

Societ  Idrologica Italiana
Italian Hydrological Society

Deutsche
Hydrologische
Gesellschaft

- 1596 Hydrological functioning of cattle ranching impoundments in the Dry Chaco rangelands of Argentina
Patricio N. Magliano, David Mindham, Wlodek Tych, Francisco Murray, Marcelo D. Nosetto, Esteban G. Jobbágy, Marcos J. Niborski, Mariana C. Rufino and Nick A. Chappell

Research Papers

- 1609 Comparison of runoff and river flow in two large northern basins
Ming-ko Woo, Robin Thorne and Laura Brown
- 1623 The viability of co-active fuzzy inference system model for monthly reference evapotranspiration estimation: case study of Uttarakhand State
Anurag Malik, Anil Kumar, Mohammad Ali Ghorbani, Mahsa H. Kashani, Ozgur Kisi and Sungwon Kim
- 1645 Difference in the bed load transport of graded and uniform sediments during floods: An experimental investigation
Khabat Khosravi, Amir H. N. Chegini, Andrew D. Binns, Prasad Daggupati and Luca Mao
- 1665 A systematic comparison of statistical and hydrological methods for design flood estimation
Kenechukwu Okoli, Maurizio Mazzoleni, Korbinian Breinl and Giuliano Di Baldassarre
- 1679 Spatial conservation areas for water yield hydrological ecosystem services with their economic values effects under climate change: a case study of Teshio watershed located in northernmost of Japan
Min Fan, Daniel Ocloo Mawuko, Hideaki Shibata and Wei Ou
- 1710 Accuracy evaluation of GPM multi-satellite precipitation products in the hydrological application over alpine and gorge regions with sparse rain gauge network
Jiachao Chen, Zhaoli Wang, Xushu Wu, Xiaohong Chen, Chengguang Lai, Zhaoyang Zeng and Jun Li
- 1730 Machine learning models for the estimation of monthly mean daily reference evapotranspiration based on cross-station and synthetic data
Lifeng Wu, Youwen Peng, Junliang Fan and Yicheng Wang
- 1751 Quantification of the forecast uncertainty using conditional probability and updating models
Huanhuan Ba, Shenglian Guo, Yixuan Zhong, Shaokun He and Xushu Wu
- 1772 Development of multi-model ensemble for projection of extreme rainfall events in Peninsular Malaysia
Muhammad Noor, Tarmizi Ismail, Shamsuddin Shahid, Mohamed Salem Nashwan and Shahid Ullah
