Qi Zhang, Nanjing Institute of Geography and Limnology, Chinese Academy of Sciences, China

US Mail Identification Statement

Hydrology Research is published six times a year, in February, April, June, August, October and December. IWA Publishing is a company registered in the UK, no. 3690822.

US Publishing office: *Hydrology Research*, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, USA
Periodicals postage paid at Rahway, NJ, USA
Postmaster: send address corrections to *Hydrology Research*, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, USA

Aims and Scope

It is the principal aim of the Journal to conform to the highest possible scientific and technical standards.

Hydrology Research publishes articles within hydrology in its widest sense, with an emphasis on water quantity and quality aspects of the hydrological cycle. Papers that draw upon adjoining sciences are embraced as well.

Hydrology Research is intended to be a link between basic hydrological research and practical application of scientific results within the broad field of water management.

Submission

All manuscripts should be submitted electronically through our Online Submission and Peer Review System: <http://www.editorialmanager.com/hydrology>. Authors should prepare their papers in accordance with the current *Instructions for Authors*, available at https://iwaponline.com/hr/pages/Instructions_for_authors or from the Editorial Office at the address given inside the back cover.

Published in partnership with: Nordic Association for Hydrology

Nordic Association for Hydrology (NHF) is an independent body aiming at promoting hydrology as a science, increasing the understanding of hydrology, and enhancing the application of hydrological methods within applied sciences and water management, generally and in the North. The Association strongly supports international hydrological co-operation. More information is available at <http://www.nhf-hydrology.org/>

British Hydrological Society

British Hydrological Society (BHS) was formed in 1983 in response to a clear need in the UK for a new, broad-based, national society for the advancement of hydrology. The Society caters for all those with an interest in the inter-disciplinary subject of hydrology. It aims to promote interest and scholarship in scientific and applied aspects of hydrology, and to foster the involvement of its members in national and international activities. More information is given at <http://www.hydrology.org.uk/>
