

Journal of Water and Climate Change

A Journal of the International Water Association

volume 13 | issue 9 | September 2022

Contents

- 3217 Flood vulnerability assessment at the local scale using remote sensing and GIS techniques: a case study in Da Nang City, Vietnam
Tran Thi An, Saizen Izuru, Tsutsumida Narumasa, Venkatesh Raghavan, Le Ngoc Hanh, Nguyen Van An, Nguyen Vinh Long, Ngo Thi Thuy and Truong Phuoc Minh
- 3239 Spatio-temporal variations of vegetation cover and its influence on surface air temperature change over the Yellow River Basin, China
Zhenyue Han, Qiang Wu, Ruixun Lai, Shan-e-hyder Soomro, Dongru Hou and Caihong Hu
- 3253 Changes in precipitation and discharge in a Mediterranean catchment as a response to climate change and human activities
Youness Hrouf, Zahra Thomas, Ophélie Fovet, Karima Sebari and Pauline Rousseau-Gueutin
- 3274 Performance assessment of interpolation techniques for optimal areal rainfall–temperature estimation: the case of two contrasting river catchments, Akaki and Mille, in Ethiopia
Hirpo Gudeta Bati, Tenalem Ayenew Tegaye and Tena Alemirew Agumassie
- 3305 Statistical and spectral analysis of wind over a strategic location
Nishi Srivastava, Jaya Divyam, Upamanyu Ghosh, Madhu Priya, Nisheeth Saxena and Manoj Kumar
- 3323 Comparative study on stream flow prediction using the GMNN and wavelet-based GMNN
Shivam Agarwal, Parthajit Roy, Parthasarathi Choudhury and Nilotpal Debbarma
- 3338 Impacts of climate change on crop and irrigation water requirement in the Savannah regions of Ghana
Awo Boatemaa Manson Incoom, Kwaku Amaning Adjei, Samuel Nii Odai, Komlavi Akpoti and Ebenezer Kwadwo Siabi
- 3357 Calcium chloride enhances growth and physio-biochemical performance of barley (*Hordeum vulgare* L.) under drought-induced stress regimes: a future perspective of climate change in the region
Wadood Shah, Noor Zaman, Sami Ullah and Muhammad Nafees
- 3379 A high-resolution projected climate dataset for Vietnam: Construction and preliminary application in assessing future change
Quan Tran-Anh, Thanh Ngo-Duc, Etienne Espagne and Long Trinh-Tuan

- 3400 Analysis of green total factor productivity in OECD and BRICS countries: based on the Super-SBM model
Xiangxiang Sun
- 3416 Quantifying the changes in the runoff and its components across the Upper Indus River Basin under climate change
Sohaib Baig, Takahiro Sayama and Masafumi Yamada
- 3435 Multivariate analysis of multiscale periodicity in North American annual mean sea level based on wavelet coherence and multiple wavelet coherence
Chao Song and Xiaohong Chen
- 3458 Determination of ice production in a natural river: a case study in the Inner Mongolia Reach of the Yellow River
Zhixing Hou, Jun Wang, Jueyi Sui, Baosen Zhang and Fangxiu Zhang
- 3473 Quantitative analysis of the human intervention impacts on hydrological drought in the Zayande-Rud River Basin, Iran
Nesar Nasiri, Keyvan Asghari and Ali A. Besalatpour
- 3496 Assessing the potential impacts of climate change on streamflow in the data-scarce Upper Ruvu River watershed, Tanzania
Nickson Tibangayuka, Deogratias M. M. Mulungu and Fides Izdori
- 3514 Corrigendum: Journal of Water and Climate Change (2022) 13 (7): 2577–2596: Hydrologic characterization of the Upper Ayeyarwaddy River Basin and the impact of climate change, Pabitra Gurung, Shashwat Dhungana, Aung Kyaw Kyaw, Luna Bharati
