Contents

171 Carbon nanotubes as antimicrobial agents for water disinfection and pathogen control
Dan Liu, Yiqin Mao and Lijun Ding

181 Drinking water disinfection by-products exposure and health effects on pregnancy outcomes: a systematic review
Funanani Mashau, Esper Jacobeth Ncube and Kuku Voyi

197 Drinking and recreational water exposures among Canadians: Foodbook Study 2014–2015
Rachelle Janicki, M. Kate Thomas, Katarina Pintar, Manon Fleury and Andrea Nesbitt

212 Arsenic, cadmium, lead, and chromium in well water, rice, and human urine in Sri Lanka in relation to chronic kidney disease of unknown etiology

223 Learning from water treatment and hygiene interventions in response to a hepatitis E outbreak in an open setting in Chad
Alexander Spina, David Beversluis, Andrea Irwin, Alexandra Chen, Jean Noel Nassariman, Abdelkhadir Ahamat, Idriss Noh, Jan Oosterloo, Prince Alfani, Sibylle Sang, Annick Lenglet and Dawn Louise Taylor

233 Characterization of the bacterial community in shower water before and after chlorination
Marjolein C. F. M. Peters, Maarten G. A. Keuten, Aleksandra Knezev, Mark C. M. van Loosdrecht, Johannes S. Vrouwenvelder, Luuk C. Rietveld and Merle K. de Kreuk

244 Fungal contaminants in man-made water systems connected to municipal water
Duygu Göksay Kadaifciler and Rasime Demirel

253 Estrogenic activity, selected plasticizers and potential health risks associated with bottled water in South Africa
Natalie H. Aneck-Hahn, Magdalena C. Van Zijl, Pieter Swart, Barry Truebody, Bettina Genthe, Jessica Charmier and Christiaan De Jager
263 Water treatment and handwashing practices in rural Kenyan health care facilities and households six years after the installation of portable water stations and hygiene training
   Anu Rajasingham, Margaret Leso, Samuel Ombeki, Tracy Ayers and Robert Quick

275 Drivers of microbiological quality of household drinking water – a case study in rural Ethiopia
   Muhammed A. Usman, Nicolas Gerber and Evita H. Pangaribowo

289 Distribution of human fecal marker GB-124 bacteriophages in urban sewage and reclaimed water of São Paulo city, Brazil
   Tatiana Prado, Antônio de Castro Bruni, Mikaela Renata Funada Barbosa, Vilma Marques Santos Bonanno, Suzi Cristina Garcia and Maria Inês Zanoli Sato

300 Exploring links between water quality and E. coli O157:H7 survival potential in well waters from a rural area of southern Changchun City, China
   Meiyue Ding, Jiahang Li, Xiaodan Liu, Huiru Li, Rui Zhang and Jincai Ma

311 Yeast isolation and identification in water used in a Brazilian hemodialysis unit by classic microbiological techniques and Raman spectroscopy
   Lilian Bueno Montanari, Flávio Garcia Sartori, Dióginis Bueno Montrazi Ribeiro, Luís Fernando Leandro, Regina Helena Pires, Márcia de Souza Carvalho Melhem, César Alexandre de Mello and Carlos Henrique Gomes Martins

321 Characterization by fluorescence of dissolved organic matter in rural drinking water storage tanks in Morocco
   Faissal Aziz, Naaila Ouazzani, Laila Mandi, Aziz Assaad, Steve Pontvianne, Hélène Poirot and Marie-Noëlle Pons
