

Journal of Water and Health

A Journal of the International Water Association

volume 19 | issue 5 | October 2021

Contents

- 687 Molecular prevalence and subtype distribution of *Blastocystis* sp. in Asia and in Australia
Sara Nemati, Mohammad Reza Zali, Paul Johnson, Hamed Mirjalali and Panagiotis Karanis
- 705 Prevalence of extended-spectrum β -lactamase (ESBL)-producing *Enterobacteriaceae* in wastewater: a systematic review and meta-analysis
Nawel Zaatout, Samia Bouras and Nouria Slimani
- 724 Fungi in dialysis water and dialysate: occurrence, susceptibility to antifungal agents and biofilm production capacity
Laís Anversa, Bruna Rossini Lara, Caroline Demai Romani, Erika Kushikawa Saeki, Gabriel Antonio Nogueira Nascentes, Lucas Xavier Bonfietti, Márcia de Souza Carvalho Melhem, Luciana da Silva Ruiz, Carlos Henrique Camargo and Virgínia Bodelão Richini Pereira
- 736 Economic valuation meta-analysis of freshwater improvement in developed and developing countries. Are they different?
Diego Roldán, Juan P. Sarmiento and Francisco Roldán-Aráuz
- 750 Performance evaluation of ceramic pot filters combined with adsorption processes for the removal of heavy metals and phenolic compounds
Andrea Pérez-Vidal, Jorge Antonio Silva-Leal, Jaime Diaz-Gómez, Camilo J. Meneses-Torres, Juan E. Arias-Vallejo, Giovanna A. Giraldo-Tenorio and Maria Camila Bacca-Jordán
- 762 Microbial source tracking of fecal contamination in Laguna Lake, Philippines using the library-dependent method, rep-PCR
Laurice Beatrice Raphaele O. dela Peña, Kevin L. Labrador, Mae Ashley G. Nacario, Nicole R. Bolo and Windell L. Rivera
- 775 Detection of SARS-CoV-2 in wastewater is influenced by sampling time, concentration method, and target analyzed
Nancy J. Pino, Diana C. Rodriguez, Laura Castrillón Cano and Alejandra Rodriguez
- 785 Identification and characterization of vancomycin-resistant *Staphylococcus aureus* in hospital wastewaters: evidence of horizontal spread of antimicrobial resistance
Sneha Kalasseril Girijan and Devika Pillai

**World Health
Organization**

- 796 Degradation of 17 β -estradiol by UV/persulfate in different water samples
Yunjie Zhu, Yanan Shao, Min Wei, Kefu Yu, Yuanyuan Zhang, Jianping Huang and Xinyue Yin
- 808 Thermal and chemical disinfection of water and biofilms: only a temporary effect in regard to the autochthonous bacteria
Andreas Nocker, Elisa Lindfeld, Jost Wingender, Simone Schulte, Matthias Dumm and Bernd Bendinger
- 823 Justice and sanitation well-being: an analysis of frameworks in the context of slippage, based on findings from Shravasti, Uttar Pradesh, India
Kopal Khare and Lavanya Suresh
- 836 Enhancement of sunlight irradiation for wastewater disinfection by mixing with seawater
Yoshihiro Suzuki, Mizuho Uno, Masateru Nishiyama, Kei Nukazawa and Yoshifumi Masago
- 846 Library-independent source tracking of fecal contamination in selected stations and tributaries of Laguna Lake, Philippines
Joseh Jermaine M. Abello, Gicelle T. Malajacan, Kevin L. Labrador, Mae Ashley G. Nacario, Luiza H. Galarion, Marie Christine M. Obusan and Windell L. Rivera
- 855 Environmental surveillance of *Legionella pneumophila* in hot water systems of hotels in Morocco
Abdelwahid Assaidi, Afaf Soummame, Mostafa Ellouali, Hassan Latrache, Mohammed Timinouni, Hafida Zahir and El Mostafa Mliji
- 864 High occurrence of *Acanthamoeba* spp. in the water samples of public swimming pools from Kerman Province, Iran
Raheleh Eftekhari-Kenzerki, Kavous Solhjoo, Zahra Babaei, Hassan Rezanezhad, Ahmad Abolghazi and Ali Taghipour
- 872 Identifying challenges in drinking water supplies: assessment of boil water advisories in Norway (2008–2019)
Susanne Hyllestad, Svanhild Schipper Kjorsvik, Lamprini Veneti and Ettore Amato
