Aims and Scope

Journal of Water Reuse and Desalination is an international journal publishing peer-reviewed papers on the science and technology, policy, regulation, social and economic aspects and applications of sustainable sources of water to cope with water scarcity, including new sources of non-conventional water. Journal of Water Reuse and Desalination publishes review articles, theoretical and experimental research papers, new findings and issues of unplanned and planned reuse. The journal welcomes contributions from developing and developed countries.

The journal includes, but is not limited to, the following topics:

- Waterway, groundwater, stormwater treatment and reuse
- Municipal, industrial, agricultural and environmental applications
- Desalination technology for seawater and brackish water
- Brine management and technology
- Quality aspects
- Environmental impacts
- Health considerations
- Risk Assessment
- Design and application of water reuse systems
- Economic, social and policy issues
- Augmentation of surface and ground water sources

Submission

All manuscripts should be submitted electronically through our Online Submission and Peer Review System: http://www.editorial-manager.com/jwrd. Authors should prepare their papers in accordance with the current instructions for authors printed at the back of this journal, and also available at www.iwaponline.com or from the Editorial Office at the address given inside the back cover.
