Contents

465 Editorial: Journal of Water Reuse and Desalination moves to Open Access
Blanca Jiménez Cisneros, Jörg E. Drewes, Stephen Gray, In S. Kim and How Yong Ng

466 First implementation of a SEMIZENTRAL resource recovery center
J. Tolksdorf, D. Lu and P. Cornel

476 Nitrogen removal and functional bacteria distribution of ANAMMOX at ambient temperature
Taotao Zeng, Dong Li, Wei Liao, Wenxin Qiu and Jie Zhang

484 COD removal from petrochemical wastewater by UV/hydrogen peroxide, UV/persulfate and
UV/percarbonate: biodegradability improvement and cost evaluation
Ali Akbar Babaei and Farshid Ghanbari

495 Integration of effective microorganisms and membrane bioreactor for the elimination of pharmaceutical
active compounds from urine for safe reuse
Hussein I. Abdel-Shafy and Mona S. M. Mansour

505 Assessment of membrane fouling indices during removal of reactive dye from batik wastewater
Indok Nurul Hasyimah Mohd Amin and Muhamad Hafiz Muhammad Nizam

515 Adsorption of reactive green 19 from water using polyaniline/bentonite
Jingxi Tie, Dongguang Chen, Meiqi Zhao, Xiaolei Wang, Shangang Zhou and Longgui Peng

524 Distribution and extraction of chromium from phosphate ore
Assia Khelalfa, Rachid Delimi and Zahia Benredjem

533 Application of forward osmosis in reusing the brackish concentrate produced in reverse osmosis plants
with secondary treated wastewater as feed solution: a case study
W. D. Wang, M. Esparra, H. Liu and Y. F. Xie

544 Water polishing of phenol by walnut green hull as adsorbent: an insight of adsorption isotherm and kinetic
H. Godini, F. Hashemi, L. Mansuri, M. Sardar, Ghasem Hassani, S. M. Mohseni, A. A. Alinejad,
S. Golmohammadi and A. Sheikh Mohammadi
553 Degradation of dye wastewater by persulfate activated with Fe₃O₄/graphene nanocomposite
   Xiao-Bao Gong

562 Removal of Pb(II) from aqueous solutions using Acacia Nilotica seed shell ash supported Ni₀.5Zn₀.5Fe₂O₄
   magnetic nanoparticles
   Farshad Omidvar-Hosseini and Farid Moeinpour

574 Comparing the photocatalytic process efficiency using batch and tubular reactors in removal of methylene
   blue dye and COD from simulated textile wastewater
   Sajad Rahimi, Ali Poormohammadi, Behnam Salmani, Mohammad Ahmadian and Mina Rezaei
