Contents

Review Paper
545 Effectiveness of public rural waterpoints in Bangladesh with special reference to arsenic mitigation

Review Paper
563 Fecal sludge management: a comparative analysis of 12 cities
Andy Peal, Barbara Evans, Isabel Blackett, Peter Hawkins and Chris Heymans

Review Paper
576 Undernutrition’s blind spot: a review of fecally transmitted infections in India
Robert Chambers and Gregor von Medeazza

Review Paper
590 Data and monitoring in the Indian rural water and sanitation sector – a review of current status and proposed ways forward
Aidan A. Cronin and Nisha Thompson

604 Evaluation of Colilert-18® as an alternative method for monitoring total coliforms and Escherichia coli in some faecally polluted river waters
Amanda S. Brand and Jo M. Barnes

612 Spatial variations in access to improved sanitation and water in Lagos state
Michael Kunnui

620 Removal of microbes to World Health Organization requirements using a locally developed, low cost, micro-porous, ceramic water filter
J. J. Simonis, A. K. Basson and T. Selepe

625 Greywater treatment by vermifiltration for sub-Saharan urban poor
Amare T. Adugna, Harinaivo A. Andrianisia, Yacouba Konate, Awa Ndiaye and Amadou H. Maiga

633 Effect of hydraulic loading frequency on performance of planted drying beds for the treatment of faecal sludge
El hadji Mamadou Sonko, Mbaye Mbéguiéré, Cheikh Diop, Seydou Niang and Linda Strande

642 If you build it will they come? Factors influencing rural primary pupils’ urination and defecation practices at school in western Kenya
Bethany A. Caruso, Robert Dreibelbis, Emily Awino Ogutu and Richard Rheingans
654  Passive evaporation of source-separated urine from dry toilets: a lab study
    David N. Bethune, Angus Chu and M. Cathryn Ryan

663  Deployment of the microbial fuel cell latrine in Ghana for decentralized sanitation
    Cynthia J. Castro, Joseph E. Goodwill, Brad Rogers, Mark Henderson and Caitlyn S. Butler

672  Comparing health outcomes and point-of-use water quality in two rural indigenous communities of Baja
    California, Mexico before and after receiving new potable water infrastructure
    Paula Stigler-Granados, Penelope J. E. Quintana, Richard Gersberg, Maria Luisa Zúñiga and
    Thomas Novotny

681  Sanitation in developing countries: a systematic review of user preferences and motivations
    Zakiya Seymour and Joseph Hughes

692  Constraints and motivations to sanitation business in peri-urban communities in Ghana
    Fred Nimoh, Kofi Poku, Kwasi Ohene-Yankunya, Flemming Konradsen and Robert C. Abaidoo

699  Microfinance partnerships to improve access to durable water filters: results from six pilots in India and
    Cambodia
    Elizabeth M. Blanton, Slavea Chankova, Ramakrishnan Ganesan, Tim Elliott, Tanya Dargan and
    Lorelei L. Goodyear

Short Communication

709  The potential of a semi-decentralised bulk water treatment approach for emergency relief
    Caetano C. Dorea and Vincent Jalaber

Short Communication

714  Effect of source water quality on solar disinfection rate under multiple experimental conditions
    M. Mansoor Ahammed and Shilpa Dave

Short Communication

720  Water consumption patterns in a rural setting in Ngamiland district, Botswana: the case of Boro village
    Itumeleng Oageng and Gagoitseope Power Mmopelwa

Short Communication

727  A study on contamination risks of wells from Kollam district, southern India
    S. Usha, P. S. Rakesh, S. Subhagan, M. Shaji and K. Salila

Letters to the Editor

Responses to: N. Preneta, S. Kramer, B. Magloire and J. M. Noel (2013) Thermophilic co-composting of

733  Letter to the Editor
    D. Berendes, K. Levy, J. Knee, T. Handzel and V. Hill

734  Authors Response
    S. Kramer, N. Preneta, B. Magloire and J. M. Noel
