Contents

Research Paper
531 Accelerating rural sanitation coverage in Ghana: what are the speed bumps impeding progress?
   Isaac Monney, Amos Baffoe-Kyeremeh and Papa Kofi Amissah-Reynolds

Research Paper
544 On-site treatment of used wash-water using biologically activated membrane bioreactors operated at different solids retention times
   Kristin T. Ravndal, Rahel Künzle, Nicolas Derlon and Eberhard Morgenroth

Research Paper
553 The paradox of water accessibility: understanding the temporal and spatial dimensions of access to improved water sources in Rwanda
   Lydia Osei, Jonathan Amoyaw, Godfred Odei Boateng, Sheila Boamah and Isaac Luginaah

Research Paper
565 The usefulness of a handwashing proxy in large household surveys
   Victoria Shelus and Orlando L. Hernandez

Research Paper
574 Handwashing promotion in humanitarian emergencies: strategies and challenges according to experts
   Jelena Vujicic, Pavani K. Ram and Lauren S. Blum

Research Paper
586 Willingness to pay for VIP latrines in rural Senegal
   Ralph P. Hall, Eric A. Vance, Emily Van Houweling and Wandi Huang

Research Paper
594 Analysis of institutional arrangement for greywater management in unplanned settlements of Kinondoni municipality Tanzania
   Teresia W. Ndunguru and Deogratias M. M. Mulungu

Practical Paper
608 The development of an onsite sanitation system based on vermicfiltration: the ‘Tiger Toilet’
Practical Paper

614 An economical, environmental, and social comparison between vacuum and gravity sewers in decentralized sanitation systems, with Egypt as a case study

Abdelsalam Elawwad, Mostafa Ragab and Hisham Abdel-Halim

Practical Paper

620 Latrine desludging pump development using a simple test for simulant strength: A case study from Uganda

Practical Paper

625 Achieving sustainable water supply through better institutions, design innovations and Water Safety Plans – an experience from Nepal

Pamela White, Indra Raj Badu and Parikshit Shrestha

Short Communication

632 Application of nano-silver coated granular activated carbon for inactivation of septic tank effluent

Thammarat Koottatep, Saroj Kumar Chapagain, Jaruwat Watanatanachart and Chongrak Polprasert
