Monitoring outcomes and impacts of capacity development in the water sector: a Cap-Net UNDP experience

Question No 1: How have you used the knowledge from the course to improve your own performance at work?
Question No 2a. How have you shared the knowledge from the course to improve the performance of your organization?
Question No 2b. How have you shared the knowledge from the course to other people and institutions?
Question No 3. What do you think has been the impact of the knowledge you received at the course? (What change have you observed including outside your own work or organization?)

Please answer the survey question below relate to your participation in <course name> on <Date>.

1. Have you used the knowledge acquired from the course to improve your performance at your organization?
   ☐ No or facing constraints
   ☐ No still in planning
   ☐ Yes in process
   ☐ Yes already done

   Please describe your answer here and include the situation before and after you used the knowledge (if possible) and constraints if any.

2. Have you shared the knowledge acquired from the course with colleagues and stakeholders other than those in your own organization?
   ☐ No or facing constraints
   ☐ No still in planning
   ☐ Yes in process
   ☐ Yes already done
Please describe your answer here and include detail of what was the action, who participated, where did it take place, what were the results out of the action (if possible). Please note that there can be many actions.

3. Have you used the knowledge acquired from the course to develop/support your proposals, approaches, and/or research including but not limited to gaining more responsibilities and/or business opportunities?
   ☐ No
   ☐ Yes

   If your answer is ‘Yes’ please describe in detail the action (if possible). Please note that it can be more than one action.

4. After participating in the course, have you done other things that are not mentioned in question above?
   ☐ No
   ☐ Yes

   If your answer is ‘Yes’ please describe in detail the action (if possible). Please note that it can be more than one action.

5. How can we improve our courses in the future in order to help participants to apply the new knowledge?
