Water Science & Technology: Water Supply

Volume 10, Number 4

Contents

487 Integrated water resource planning in the context of climate uncertainty
   S. Fane and A. Turner

495 Ancient water management techniques to counteract drought and desertification in the Mediterranean
   Pietro Laureano

504 The influence of divalent ions on the rejection of carbamazepine in the presence of humic acid by nanofiltration
   M. Janqorban, A. Torabian, G. R. Nabi Bidhendi and A. Safari

512 Monochloramine and total haloamine decay after a short prechlorination time in the presence of bromide
   A. Alsulaili, G. E. Speitel Jr. and L. E. Katz

517 Genetic algorithm-based optimization of water resources allocation under drought conditions
   Z. Rao, D. Debski, D. Webb and R. Harpin

526 Preventing trihalomethane formation: the ability of granular activated carbon and brimac media to remove colour
   and total organic carbons, from drinking water in the north west of Scotland
   K. M. Courtnadge, A. Muir, S. Sandilands and J. Martin

534 Monitoring the effects on the water balance of the Garzweiler open pit mine: concepts, methods and experience
   B. Bucher, R. Jaritz and D. Berger

541 Cleaner production to drive water efficiency
   Vanessa Lenihan

546 Unpacking the energy implications of distributed water infrastructure: how are rainwater systems performing?
   Monique Retamal and Andrea Turner

554 Water supply of Bologna (Italy) by Roman aqueduct: history, morphology and hydraulic, from ancient time to nowadays
   Renato Drusiani, Giancarlo Leoni, Danilo Demaria and Nicoletta Lembo

561 First results of a study of the Etruscan tunnel and other hydraulic works on the Ponte Coperto stream (Cerveteri, Rome, Italy)
   Pio Bersani, Angelo Canalini and Walter Dragoni

570 Effects of rainwater harvesting on centralized urban water supply systems
   C. Grandet, P. J. Binning, P. S. Mikkelsen and F. Blanchet

577 Role of decentralised systems in the transition of urban water systems
   Ashok Sharma, Stewart Burn, Ted Gardner and Alan Gregory
584  Looking for efficiency through integrated water management between agriculture and urban uses
Francisco Cubillo

591  Pilot plant trials: management of membrane concentrate
N. Vigneron-Larosa, A.-S. Lescourret, A. Bignon, C. Breda, B. Bozkaya-Schrotter, C. Daines
and J.-C. Schrotter

600  Dynamic virtual infrastructure benchmarking: DynaViBe
R. Sitzenfrei, S. Fach, M. Kleidorfer, C. Urich and W. Rauch

610  Behaviour of brominated and chlorinated flame retardants during drinking water treatment
F. Sacher, B. Körner, A. Thoma, H.-J. Brauch and D. Khiari

618  A brief history of water supply and wastewater management in ancient Greece
A. N. Angelakis and D. S. Spyridakis

629  Effects of mixing on chloramination process
K. Shodhan and I. Wei

638  Experimental study on colour removal from textile wastewaters using the H₂O₂/UV process with low- and
medium-pressure lamps
C. Caretti and C. Lubello

647  Historical, biological and morphological aspects of the Roccarainola qanat in the district of Naples, Italy
G. De Feo, S. De Gisi, C. Malvano, D. Capolongo, S. Del Prete, M. Manco, F. Maurano and E. Tropeano

656  The karez of the Sauran region of Central Asia
R. Sala, J. M. Deom and D. Clarke

664  Indirect economic impacts in water supplies augmented with desalinated water
M. Rygaard, E. Arvin and P. J. Binning

672  Organic fouling development in a long channel RO membrane cell
H. Mo and H. Y. Ng
