Water Science and Technology: Water Supply

Volume 15, Number 4

Contents

667 40 years on: what do we know about drinking water disinfection by-products (DBPs) and human health?
Steve E. Hrudey and John Fawell

675 The effect of pipe collectors in reducing the drainage coefficient rate
Karim Ghorbani, Aimrun Wayayok, Masumeh Abbaszadeh and Ahmad Fikri

683 Effectiveness of priority PAH removal in a water coagulation process
Anna Nowacka and Maria Włodarczyk-Makula

693 Human health risk assessment related to blue-green algae mass development in the Kuibyshev Reservoir
O. V. Nikitin, N. Yu. Stepanova and V. Z. Latypova

701 Optimal planning of water and wastewater management infrastructure for insular areas: the role of water reuse
Petros Gikas, Songsong Liu, Lazaros G. Papageorgiou and Flora Konstantopoulou

709 Greenhouse based desalination for brackish water management using bittern evaporative cooling technique
Mohamed H. Nour, Ashraf Ghanem, Martin Buchholz and Ahmed Nassar

718 Performance indicators for water supply management
Ruggero Ermini, Rafet Ataoui and Lydra Qeraxhiu

727 Ecohydrological modeling of irrigation scheduling of maize using time series analysis in the temperate region of Kashmir valley, India
R. Kumar, Zeenat Farooq, Sakiba Nabi and Deepak Jhajharia

736 The impact of projected changes in climate variability on the reliability of surface water supply in Scotland
Muhammad Afzal, Alexandre S. Gagnon and Martin G. Mansell

746 Development of a risk-based approach for better protection of drinking water catchments in Flanders (Belgium)
S. Six, T. Diez, B. Van Limbergen and L. Keustermans

753 Multi-objective optimization of the Three Gorges cascaded reservoirs operation with emphasis on electricity generation and ecological requirements
Yue Zhao, Huan Ying and Jianzhong Zhou

766 Effect of NaCl on antimony and phthalate compounds leached from PET bottles
Piyawan Leechart, Duangrat Inthorn and Paitip Thiravetyan

773 Analysis and assessment of confined and phreatic water quality using a rough set theory method in Jilin City, China
He Huang, Xiujuan Liang, Changlai Xiao and Zhong Wang
784  Application of a GIS-based DRASTIC model and groundwater quality index method for evaluation of groundwater vulnerability: a case study, Sefid-Dasht
   Nastaran Khodabakhshi, Gholamreza Asadollahfardi and Nima Heidarzadeh

793  Assessment of the water quality of the Seybouse River (north-east Algeria) using the CCME WQI model
   Lamia Hachemi Rachadi and Hocine Amarchi

802  Study on the joint probability distribution of irrigation water volume and irrigation water efficiency
   Yong Zhao, Jinping Zhang and Weihua Xiao

810  Efficacy of vacuum ultraviolet photolysis for bromate and chlorate removal
   Naoyuki Kishimoto, Yumeko Yamamoto and Syou Nishimura

817  A study of multi-objective dynamic water resources allocation modeling of Huai River
   Jing Peng, Ximin Yuan, Lan Qi and Qiliang Li

825  Effect of oxygen deprivation on treatment processes in a full-scale drinking water biofilter
   D. A. Seborg, I. L. Breda and L. Ramsay

834  Forward osmosis desalination from laboratory to market

845  Utilizing structural equation modeling as an evaluation tool for critical parameters of the biosand filter in a pilot study in Para, Brazil
   L. E. Voth-Gaeddert, D. W. Divelbiss and D. B. Oerther

852  A model to simulate leakage through joints in water distribution systems
   Carmine Covelli, Luca Cozzolino, Luigi Cimorelli, Renata Della Morte and Domenico Pianese

864  Faecal coliform attachment to settleable suspended sediments in fresh surface waters: linear partition model validation and sediment concentration effects
   L. Jiang, Y. C. Chen, D. J. Zhu and Z. W. Liu

871  Public engagement in integrated urban water management in Saudi Arabia: teachers’ perceptions in relation to water awareness
   Abdullah Alsaluli, Abdullahi Ahmed and John Davies

881  Continuous treatments of synthetic groundwater by an in situ denitrification and oxidation process with injection of electrolytic hydrogen and oxygen
   Jian Ye, Akane Kiga, Katsuki Naito, Huu Cong Vo and Yutaka Sakakibarba
