Water Science and Technology: Water Supply

Volume 16, Number 2

Contents

263 Testing and developing energy harvester systems for operation of energy-self-sufficient measurement and control units in drinking water supply
S. Rödel, T. Krätzig and L. Meyer

274 Water–energy nexus in houses in Brazil: comparing rainwater and gray water use with a centralized system
A. S. Vieira and E. Ghisi

284 Determining the optimal year-end water level of a multi-year regulating storage reservoir: a case study
Jinlong Wang, Weibin Huang, Guangwen Ma and Yuhua Wang

295 M-PGMA as a new water treatment agent to remove oxytetracycline from water
Cheng Liu, Bin Wang, Yang Deng, Jie Wang, Wei Chen and Yu Liu

305 Using HPSEC to identify NOM fraction removal and the correlation with disinfection by-product precursors
Euis Nurul Hidayah, Yung-Chen Chou and Hsuan-Hsien Yeh

314 Clarification of algae-laden water using electrochemical processes
Patrick E. Wiley and Jonathan D. Trent

324 Robust water quality controller for a reverse osmosis desalination system
Bui Duc Hong Phuc, Sam-Sang You, Tae-Woo Lim and Hwan-Seong Kim

333 How can drinking water treatments influence chlorine dioxide consumption and by-product formation in final disinfection?
Sabrina Sorlini, Michela Biasibetti, Francesca Gialdini and Maria Cristina Collivignarelli

347 Removal of iron and manganese from aqueous solutions using carbon nanotube filters

354 Arsenic, antimony and chromium speciation using HPLC-ICP-MS in selected river ecosystems of Upper Silesia, Poland – a preliminary study and validation of methodology
Magdalena Jablonska-Czapla and Sebastian Szopa

362 Evaluation of submarine groundwater discharge into the northern Bohai Bay, China using $^{226}\text{Ra}$
Xuejing Wang, Hailong Li, Yan Zhang, Chaoyue Wang, Wenjing Qu and Qian Ma

369 On the weaknesses and limitations of EPANET as regards energy
E. Gómez, E. Cabrera, J. Soriano and M. Balaguer

378 Effects of improved storage containers on the bacteriological quality of household drinking water in low-income urban communities in Ibadan, Nigeria
Elizabeth O. Oloruntoba, Toyin F. Babalola, Oyewale M. Morakinyo and Adejumo Mumuni
Assessment of riverside groundwater flood risk induced by high river water levels using a numerical model and monitoring data
Gyoo-Bum Kim and Eun-Jee Cha

Influence factors of organic compounds leaching from PE pipes and the potential toxic effects on E. coli and rat C6 glioma cell
Jinqing Liu, Hongxi Peng, Shengwei Tan, Jianmin Wu, Hamid Bastani and Cong Li

Assessing the potential mining pools as an alternative resource of raw water supply
Faradiella Mohd Kusin, Mohd Syakirin Md Zahar, Siti Nurjallah Muhammad, Zafira Md Zin and Shariffah Mohd Sharif

Optimum backwashing conditions and ammonium-nitrogen treatment efficiency of iron oxide modified sands coated in biofilm
Dongmei Li, Jieman Lin, Yizhi Wang, Wen Zhang and Shaoxiu Li

Study on the dynamic relation between spring discharge and precipitation in Fusong County, Changbai Mountain, Jilin Province of China
Yue Gao, Jianmin Bian and Chao Song

Key issues of ultrafiltration membrane water treatment plant scale-up from laboratory and pilot plant results
Chun Ming Chew, M. K. Aroua and M. A. Hussain

The influence of aeration on the change in corrosiveness and aggressiveness of groundwater
Tadeusz Siwiec, Magdalena M. Michel, Lidia Reczek and Piotr Nowak

Hybrid wavelet-GMDH model to forecast significant wave height
Sajad Shahabi, Mohammad-Javad Khanjani and Masourehz Hessami Kermani

Evaluation of site and hydrogeochemistry in an urban groundwater source field
Bai-Zhong Yan, Chang-Lai Xiao and Xiu-Juan Liang

Coagulation optimization for DOC removal: pilot-scale analysis of UF fouling and disinfection byproduct formation potential
Heather E. Wray, Robert C. Andrews and Pierre R. Bérubé

A comparative study between stirred dead end and circular flow in microfiltration of China clay suspensions
Norazanita Shamsuddin, Chengcheng Cao, Victor M. Starov and Diganta Bhusan Das

Optimal use of chlorine in water distribution networks based on specific locations of booster chlorination: analyzing conditions in Mexico
Daniel Hernández Cervantes, Jesús Mora Rodríguez, Xitlali Delgado Galván, Josefinia Ortiz Medel and Martín Rubén Jiménez Magaña

Renewal prioritization of multi-regional water supply pipelines through water supply risk assessment
Kibum Kim, Mincheol Kim, Jeewon Seo and Jayong Koo

Using Fe–Mn binary oxide three-dimensional nanostructure to remove arsenic from aqueous systems
Ming Lei, Pufeng Qin, Liang Peng, Yangqing Ren, Tsutomu Sato, Qingru Zeng, Zhihui Yang and Liyuan Chai

Rapid small-scale column tests for Cr(VI) removal by granular magnetite
Efthimia Kaprara, Konstantinos Simeonidis, Anastasios Zouboulis and Manassis Mitarakas

Assessment of the potential for potable water savings by using rainwater in houses in southern Brazil
André Castellani Lopes, Ricardo Forgiarini Rupp and Enedir Ghisi

Decision support system for the long-term city metabolism planning problem

A real-time operation of the Three Gorges Reservoir with flood risk analysis
Yixiang Sun, Deshan Tang, Huichao Dai, Pan Liu, Yifei Sun, Qingfeng Cui, Fanping Zhang, Yifan Ding, Yuhang Wei, Jinxin Zhang, Mei Wang, Aodian Li and Zhenzhu Meng
