Water Supply

Volume 20, Number 8

Contents

2941 Twenty years of asset management research for Dutch drinking water utilities
R. Beuken, J. Eijkman, D. Savic, A. Hummelen and M. Blokker

2951 A review on harvesting and harnessing rainwater: an alternative strategy to cope with drinking water scarcity
Ghanashyam Khanal, Anusha Thapa, Niranjan Devkota and Udaya Raj Paudel

2964 Promoting equitable water distribution system from Melamchi Water Supply Project in Kathmandu Valley
D. P. Ayadi, A. Rai and A. Pandey

2971 Evaluation of River Chenab water quality with respect to its users, using different classification schemes
Firdaus Kausar, Abdul Qadir, Sajid Rashid Ahmad, Mujtaba Baqar and Fozia Sardar

2988 Comparisons and improvements of eco-compensation standards for water resource protection in the Middle Route of the South-to-North Water Diversion Project
Mengkai Liu and Jing Guo

3000 Spatial evaluation of land use variability on water quality of the Densu Basin, Ghana
Rita Akosua Anima Gyimah, Anthony Yaw Karikari, Charles G Yamfi, Patricia Asantewaa-Tannor and Geophrey Kwame Anornu

3014 Study on pollution traceability based on the optimized hydrodynamic model of Tai Lake
Ruichen Xu, Yong Pang, Zhibing Hu, Jianjian Wang and John Paul Kaisam

3029 Occurrence and distribution of antibiotic resistance genes in lakes and reservoirs from water-receiving area of Eastern Route of the South-to-North Water Diversion Project, Northern China
Wei Hou, Fang Hu, Shaohua Sun, Xiaotong Dong, Mingquan Wang, Qinghua Zhao and Ruibao Jia

3038 Frazil ice jam risk assessment method for water transfer projects based on design scheme
Mengkai Liu, Qiuyl Fan and Hui Guo

3052 Crafting futures together: scenarios for water infrastructure asset management in a context of global change

3068 Non-parametric optimization technique for water distribution in pipe networks
Nikita Palod, Vishnu Prasad and Ruchi Khare

3083 Photochemical degradation characteristics of alga-sourced dissolved organic matter in Chaohu Lake, China
Guolian Li, Lu Li, Kang Song, Zhiwei Yuan, Shuguang Zhu, Jin Zhang and Fazhi Xie
3096 Energy efficiency of staged reverse osmosis (RO) and closed-circuit reverse osmosis (CCRO) desalination: a model-based comparison
Simeng Li, Karla Duran, Saied Delagah, Joe Mouawad, Xudong Jia and Mohamadali Sharbatmaleki

3107 Impact of natural organic matter characteristics and inorganic anions on the performance of ion exchange resins in natural waters
Fuhar Dixit, Benoit Barbeau and Madjid Mohseni

3120 Kinetic and thermodynamic studies on the adsorption of Cu$^{2+}$ ions from aqueous solution by using agricultural waste-derived biochars
Nihan Kaya, Ferhat Arslan, Zeynep Yıldız Uzun and Selim Ceylan

3141 Study on the influence of ecological vegetation revetment on river flow and sediment environment
Yanhua Yang, Shuqing Yang, Xin Wang, Chenyang Wang and Jianjun Wang

3156 Ranking of hybrid wavelet-AI models by TOPSIS method for estimation of daily flow discharge
Hiwa Farajpanah, Morteza Lotfirad, Arash Adib, Hassan Esmaeili-Gisavandani, Özgur Kisi, Mohammad Mehdi Riyahi and Jaber Salehpour

3172 Research on high photosynthetic efficient cultivation with drip irrigation under different mulch of maize
Yu Bai and Jinhua Gao

3183 Quantitative analysis of trace metals in the Raritan River with inductively coupled plasma mass spectrometer
Ya-nan Li, Zhihui Duan, Jing Li, Zhiwei Shao, Juncheng Mo, Junhui Wu, Shuyi Ling, Zhuoheng Liu and Chengyu Chen

3194 Radiological and chemical risk assessment from uranium concentrations in groundwater samples collected from Al-Kufa area, Iraq
Ali Abid Abojassim and Hayder Hussan Neama

3207 Preparation of multilayer polyelectrolyte ceramic membrane for water disinfection
Mohamed Boussemghoune, Chikhi Mustapha, Yasin Ozay and Nadir Dizge

3216 Mitigate water shortage by improving hydropower generation strategy of the cascade reservoir system in the Be River Basin, Vietnam
Nguyen Thi Thuy Linh and Frederick N.-F. Chou

3223 Design of up-flow aerated filters for the removal of iron from groundwater
T. Thinojah, B. Ketheesan and G. B. B. Herath

3232 Sensitivity of contaminant spread to decay rate in water distribution systems with implications for the spread of emerging contaminants
Danielle C. Pilarski and Brian D. Barkdoll

3241 Effect of electric field and Mg$^{2+}$ doping on calcium carbonate scaling shown in experiments and first principle calculations
Yuping Gao, Judong Zhao, Erjun Zhao, Xiaomin Liu, Yun Jia, Chun Ying and Lin Lin

3256 Future drought analysis using SPI and EDDI to consider climate change in South Korea
Jeongeun Won and Sangdan Kim

3281 Use of extension variance in monitoring of fluoride in bottled water
T. S. J. Luiz, V. C. G. Souza and J. C. Koppe

3288 Geochemical characteristics of arsenic in groundwater during riverbank filtration: a case study of Liao River, Northeast China
Shuai Lu, Xiaoyu Feng and Xiaosi Su

3301 A framework for the use of artificial neural networks for water treatment: development and application
Rafael Paulino and Pierre Bérubé

3318 Efficiency of horizontal subsurface flow constructed wetlands cultivated with grasses of different root systems
Fernanda Lamede Ferreira de Jesus, Antonio Teixeira de Matos and Mateus Pimentel de Matos

3542 Risk assessment models to investigate the impact of emergency on a water supply system
Honghua Shi, Xiaosheng Wang, Haiying Guo and Huifeng Hao

3557 Evaluation method of rain–flood resource utilization availability and its application in the Hanjiang River Basin
Pengxin Deng, Gaohong Xu, Jianping Bing, Changjiang Xu and Jianwei Jia

3566 Water consumption forecasting using soft computing – a case study, Trinidad and Tobago
Lee P. Leon, Barkha Chaplot and Akil Solomon

3575 Effect of time scale on flood simulation: maximum rainfall intensity and fractal theory based time disaggregation method for rainfall
Hanchen Zhang and Weijiang Zhang

3597 Calibration method for Manning’s roughness coefficient for a river flume model
Yujian Li, Yixin Geng and Liang Mao

3604 A monitoring model for the stress on a super-high arch dam during pre-impoundment construction
Jingtai Niu, Xiang Luo, Zhiping Deng, Yang Zhang, Yingjia Guo and Zhiqiang Wang

3615 Hydrated-electron-based short chain perfluorosulfonic acid decomposition in VUV/sulfite system
Yurong Gu, Zijun Dong, Xi Zhang, Qi Han and Yongbing Li

3624 Optimization of preparation of montmorillonite nanometer zero-valent iron and the degradation of amoxicillin by response surface methodology
Guangyin Sun, Jiankun Zhang, Wei Meng and Liping Wang

3634 Sustainable operation mode of a sand filter in a drip irrigation system using Yellow River water in an arid area
Youquan Jiao, Ji Feng, Yanzheng Liu, Linlin Yang and Minqi Han

3645 An approach to evaluate non-point source pollution in an ungauged basin: a case study in Xiao’anxi River Basin, China
Li Zhou, Xing Zhang, Lingxue Liu, Ting Chen, Xing Liu, Yufeng Ren, Hairong Zhang, Xiaodong Li and Tianqi Ao

3655 Medium- and long-term runoff forecasting based on a random forest regression model
Chen Shijun, Wei Qin, Zhu Yanmei, Ma Guangwen, Han Xiaoyan and Wang Liang

3665 Research on the decision-making of flood prevention emergency plans during reservoir construction based on generalized intuitionistic fuzzy soft sets and TOPSIS
Han Wu, Junwu Wang, Jingtao Feng, Denghui Liu and Sen Liu

3675 Runoff pollution control of a sewage discharge project based on green concept – a sewage runoff pollution control system
Yuan-Xu Wang

3685 Open-channel landslide hazard assessment based on AHP and fuzzy comprehensive evaluation
Xi Wang, Shuangying Wang and Jiashuo Qi

3695 Evaluation of reservoir management modernization under the concept of coordinated development
Da-jin Yu, Zhengwei Zou and Jin Li

3705 Siltation characteristics of the tail reach of Ganjiang River under the regulation of estuary gates
Zhi-chao Wang, Xin-fa Xu, Zhi-wen Huang, Nian-hua Wu and Su-fen Zhou

3715 A water quality assessment model for Suya Lake Reservoir
Xiaolei Ji, Xin Wang and Guoping Yang

3725 Influences of deficit irrigation on soil water content distribution and spring wheat growth in Hetao Irrigation District, Inner Mongolia of China
Ling Zhou
3730 Numerical simulation of groundwater contaminant transport in unsaturated flow
   Jie Yang, Yuezan Tao, Weixin Ren and Pengqiang Cao

3739 Research on response of water quality to land use pattern in nine plateau lake watersheds of Yunnan Province, China

3752 Improved dynamic simulation technique for hydrodynamics and water quality of river-connected lakes
   Bojun Liu, Jun Xia, Libin Yang, Changyong Cui, Linwei Wang and Tiansheng Li

3768 Integrated allocation model of water quantity and quality and its application in the Yellow River
   Ke Zhou

3779 Seasonal varieties and influential factors of heavy metals in sediments of Wuliangshui Lake
   Weidong Tian, Guoxia Pei, Shengnan Zhao, Xiaohong Shi, Hanmeng Zhang, Biao Sun, Shuang Song, Chi Sun and Hong Ma
