

Water Supply

Volume 22, Number 4

Contents

- 3567 Water-food-energy nexus for transboundary cooperation in Eastern Africa
Hamdy Elsayed, Slobodan Djordjevic, Dragan Savic, Ioannis Tsoukalas and Christos Makropoulos
- 3588 Assessment of contamination level of a Tanzanian river system with respect to trace metallic elements and their fate in the environment
Netsanet Muluneh Gebreyohannes, Mwemezi J. Rwiza, Wilson Leonidas Mahene and Revocatus L. Machunda
- 3603 Effect-based water quality assessment of rivers receiving discharges from legacy mines by using acute and chronic bioassays with two cladoceran species
H. Mano, Y. Iwasaki and N. Shinohara
- 3617 Rehabilitation of operation regimes in aged irrigation schemes based on hydraulic simulation
Hasan Bakhoda Bishehghahi, Atefeh Parvareh Rizi and Amir Mohammadi
- 3628 Performance of rectangular labyrinth weir – an experimental and numerical study
Mosbah Ben Said and Ahmed Ouamane
- 3645 Assessment of correlation amongst physico-chemical, topographical, geological, lithological and soil type parameters for measuring water quality of Rawal watershed using remote sensing
Mehreen Ahmed, Rafia Mumtaz, Shahbaz Baig and Syed Muhammad Hassan Zaidi
- 3661 Study on optimal adsorption conditions of norfloxacin in water based on response surface methodology
Ming Zhang, Kuo Zhang, Jinpeng Wang, Runjuan Zhou, Jiyuan Li and Wei Zhao
- 3673 Defluoridation performance comparison of aluminum hydroxides with different crystalline phases
Wei-Zhuo Gai, Shi-Hu Zhang, Yang Yang, Kexi Sun, Hong Jia and Zhen-Yan Deng
- 3685 Assessment of operation safety risk for South-to-North Water Diversion Project: a fuzzy VIKOR-FMEA approach
Huimin Li, Yinju Guo, Feng Li, Yongchao Cao, Lunyan Wang and Ying Ma
- 3702 A state-of-the-Art review of heuristic and metaheuristic optimization techniques for the management of water resources
Vijendra Kumar and S. M. Yadav
- 3729 Isolation, characterization and S^{2-} -oxidation metabolic pathway of a sulfur-oxidizing strain from a black-odor river in Beijing
Linyi Zhang, Chen Song, Yaoyao Xu, Yajun Shi and Xiaoling Liu
- 3744 Feasibility of an environmentally friendly method of contaminant flushing in water distribution systems using containment ponds
Darud E. Sheefa and Brian D. Barkdoll
- 3756 Determination of morphological parameters of Tidi watershed using remote sensing and geographic information system approaches
Lakshminarayana S. V., Pradeep Kumar Singh, Pravin Rajdhar Patil and Abhishek Jain

- 3769 Approaches for estimating mixing time in a water storage tank
Jie Zhang
- 3784 An evolution of statistical pipe failure models for drinking water networks: a targeted review
N. A. Barton, S. H. Hallett, S. R. Jude and T. H. Tran
- 3814 Further investigation of the irreversible floc breakup in flocculation kinetics modelling
Rodrigo de Oliveira Marques and Sidney Seckler Ferreira Filho
- 3824 Application of Meshless local Petrov-Galerkin approach for steady state groundwater flow modeling
Ali Mohtashami, Seyed Arman Hashemi Monfared, Gholamreza Azizyan and Abolfazl Akbarpour
- 3842 Application of hydrological model to assess river flow in the transboundary cryosphere and data-scarce watershed, a case study: Chitral-Kabul River Basin (C-KRB) in Pakistan
Abdullah Azzam, Wanchang Zhang, Muhammad Adnan Shahid and Ahmed Elbeltagi
- 3863 Assessment of the groundwater quality by using multivariate approach and non-carcinogenic risk of uranium in the inhabitants of the Bastar district, Chhattisgarh, Central India
Mayank Singh, Pokhraj Sahu, Kavita Tapadia and Dalchand Jhariya
- 3879 Evaluation of classification and decision trees in predicting daily precipitation occurrences
S. Samadianfard, F. Mikaeili and R. Prasad
- 3896 Modeling the hydrological characteristics of Hangar Watershed, Ethiopia
Abdata Wakjira Galata
- 3908 Investigating the source apportionment of heavy metals in soil surrounding reservoir using partial least-squares regression model
Xu-dong Huang, Pei-peí Han, Mei-jing Ma, Qiong Cao, Wei-zhuo Li, Fang Wan, Xiao-li Zhang, Qi-hui Chai, Ling Zhong and Bao-jian Li
- 3921 Runoff forecasting model based on CEEMD and combination model: a case study in the Manasi River, China
Lian Lian
- 3941 Assessment of zinc concentrations in surface sediment from urban and industrial sites of Umeda River, Japan
Widyastuti Kusuma Wardhani, Herto Dwi Ariesyady, Pertiwi Andarani, Minh Ngoc Nguyen, Kuriko Yokota and Takanobu Inoue
- 3951 Review of agricultural water-saving policies and measures in recent years – a case study of Jiangsu Province, China
Xing Yang, Yongwei Pu, Songgan Weng, Miao Hou and Zhihuan Wang
- 3968 A new method to determine the scale range of environmental damage caused by water pollution accidents
Gaimai Guo and Runbin Duan
- 3980 Enhanced removal of arsenic from aqueous solution by novel red mud porous beads: batch and column experiments
Yuxing Xu, Yue Yin, Mengyan Guo, Gaoyang Xu, Linlin Li and Changqing Liu
- 3993 Ozone water production using a SPE electrolyzer equipped with boron doped diamond electrodes
H. Y. Li, C. Deng, L. Zhao, C. H. Gong, M. F. Zhu and J. W. Chen
- 4006 Formation and prevention of pipe scale in water supply pipelines with anti-corrosion lining
Weixing Chen and Jingrong Chen
- 4015 3D numerical simulation of dam-break flow over different obstacles in a dry bed
Reza Maghsoodi, Abdolghafour Khademalrasoul and Hamed Sarkardeh
- 4030 Simulating and predicting soil water dynamics using three models for the Taihu Lake region of China
Can Chen, Qing Lv and Qian Tang

- 4043 The effect of drip irrigation under mulch on groundwater infiltration and recharge in a semi-arid agricultural region in China
Jing Zhang, Haihua Jing, Kebao Dong, Zexu Jin and Jiaqi Ma
- 4055 River water treatment by continuous electrocoagulation: insights into removal of acetaminophen, and natural organic matter
Shweta Kumari and R. Naresh Kumar
- 4067 Prediction of water source and water volume of underground reservoir in coal mine under multiple aquifers
Mingbo Chi, Zhiguo Cao, Baoyang Wu, Quansheng Li, Yong Zhang, Yang Wu, Lujun Wang, Yi Yang, Bao Zhang and Haixiang Li
- 4082 Development of a short-term water quality prediction model for urban rivers using real-time water quality data
J. H. Lee, J. Y. Lee, M. H. Lee, M. Y. Lee, Y. W. Kim, J. S. Hyung, K. B. Kim, Y. K. Cha and J. Y. Koo
- 4098 Flood inundation maps using Sentinel-2: a case study in Berdan Plain
Şerife Pinar Güvel, Mehmet Ali Akgül and Hakan Aksu
- 4109 Modeling bulk surface resistance and evaluation of evapotranspiration using remote sensing and MATLAB
N. C. Sanjay Shekar and B. C. Kumar Raju
- 4120 A new precipitation forecast method based on CEEMD-WTD-GRU
Xianqi Zhang, Bingsen Duan, Shaoyu He, Xilong Wu and Dong Zhao
- 4133 Fluoride-leaching simulation of aquifer sediment and its influence on groundwater fluoride levels along coastal plains
C. P. Jia, Q. Chen, M. G. An, C. L. Zhi, S. W. Lou, P. P. Zhang, Q. C. Li, Y. M. Zhang, S. Y. Han and H. T. Zheng
- 4142 Regional characteristics' impact on the performances of the gated recurrent unit on streamflow forecasting
Qianyang Wang, Yuexin Zheng, Qimeng Yue, Yuan Liu and Jingshan Yu
- 4159 Exploring water-level fluctuation amplitude in an approach channel under the regulation of a dual cascade hydro-plant in the dry season
Zhiyong Wan, Yun Li, Jianfeng An, Xiaogang Wang, Long Cheng and Yipeng Liao
- 4176 Prediction of hydraulic conductivity of porous media using a statistical grain-size model
Abhishish Chandel, Shivali Sharma and Vijay Shankar
- 4193 Experimental and numerical study of flow at a 90 degree lateral turnout with enhanced roughness coefficient and invert level changes
Maryam Bagheri, Seyed M. Ali Zomorodian, Masih Zolghadr, H. Md. Azamathulla and C. Venkata Siva Rama Prasad
- 4207 An integrated fuzzy optimization and simulation method for optimal quality-quantity operation of a reservoir-river system
Omid Babamiri, Arash Azari and Safar Marofi
- 4230 Delineating potential sites for artificial groundwater recharge using a mathematical approach to remote sensing and GIS techniques
Majed Ibrahim and Amjed Shatnawi
- 4247 Economic impacts of water market simulation in agriculture
Leyla Nourani, Seyed Nematolla Moosavi and Abdoulrasool Shirvanian
- 4262 Establishing a statistical relation between meteorological and hydrological drought indices
M. A. Jincy Rose and N. R. Chithra
- 4278 Quantifying the resilience of the water-energy nexus for a reservoir-pump station system
Jun Yao
- 4296 Impact of pipe material on the wall reaction coefficients and its application in the rehabilitation of water supply system of San Pedro Nexapa, State of Mexico
Rojacques Mompremier, Óscar Arturo Fuentes Mariles, Kebreab Ghebremichael, Jersain Gómez Nuñez and Tonantzin Ramírez Pérez

- 4307 Estimation of sedimentation in the Manwan and Jinghong reservoirs on the Lancang river
Zhilin Sun, Lixia Sun, Haolei Zheng and Zongyu Li
- 4320 Experimental investigation of oxygen transfer efficiency in hydraulic jumps, plunging jets, and plunging breaking waves
Ashabul Hoque and Anip Kumar Paul
- 4334 Contaminants of emerging concern (CECs) adsorption on superfine activated carbon
C. G. M. Fonseca, A. Sartoratto, A. N. Ponezi, D. M. Morita and R. de L. Isaac
- 4346 Multi-objective Rao algorithm in resilience-based optimal design of water distribution networks
Priyanshu Jain and Ruchi Khare
- 4361 Numerical investigation of the flow-field characteristics around the suspended pipeline under oblique flows
Qinghua Yang, Qian Yang and Yuqian Zhang
- 4373 Evaluation of the climate change impact on the intensity and return period for drought indices of SPI and SPEI (study area: Varamin plain)
Hamidreza Azizi and Niloofar Nejatian
- 4387 Research on partition strategy of an urban water supply network based on optimized hierarchical clustering algorithm
Wei Xia, Shi Wang, Mingjun Shi, Qing Xia and Wenting Jin
- 4400 Discharge modeling in compound channels with non-prismatic floodplains using GMDH and MARS models
Hojjat Allah Yonesi, Abbas Parsaie, Azadeh Arshia and Zahra Shamsi
- 4422 Spatial analysis and mapping of the groundwater quality index for drinking and irrigation purpose in the alluvial aquifers of upper and middle Chelif basin (north-west Algeria)
Elaid Madene, Abdelmadjid Boufekane, Mohamed Meddi, Gianluigi Busico and Adel Zghibi
- 4445 The concentration and prevalence of asbestos fibres in Christchurch, New Zealand's drinking water supply
S. Mager, M. Knopick and G. Oddy
- 4457 A coastal reservoir for Greater Sydney water supply in Shoalhaven river – a preliminary study
Rong Ji, Shu-Qing Yang, Muttucumaru Sivakumar, Keith Enever, Muhammad Zain Bin Riaz and Usman Khalil
- 4477 Research on real-time risk monitoring model along the water transfer project: a case study in China
Fang Wang, Bing Liu, Hongen Li and Yongjun He
- 4489 Extraction and analysis of surface lake flow direction in Poyang Lake based on texture enhancement and Hough transform
RunYuan Kuang, Yun Qiu and WenJie Peng
- 4500 Delineating the groundwater potential zones in Bangladesh
Showmitra Kumar Sarkar, Md. Esraz-Ul-Zannat, Palash Chandra Das and Khondaker Mohammed Mohiuddin Ekram
- 4517 Assessment of the impact of island development on water security based on the elements nexus for the water system in Zhoushan archipelago
Qizheng Tong, Chao Fan, Xiyong Hou, Feng Gui and Liqing Ma
- 4531 A novel rainfall prediction model based on CEEMDAN-PSO-ELM coupled model
Xianqi Zhang, Dong Zhao, Tao Wang, Xilong Wu and Bingsen Duan
- 4544 Analysis of rainfall and temperature characteristics and its correlation with Southern Oscillation Index in Beijing, China
Chengcheng Xu, Qingyan Sun and Chuiyu Lu
- 4558 Leakage detection in water distribution networks using space search reduction and local fitness in steady-state and EPS (case study: water distribution network of Birjand)
Ali Nasirian and Marzieh Ahrari

- 4571 People's participation in using treated wastewater as an approach for sustainability of ecosystem services, green spaces, and farmlands in peri-urban areas: the case study of Kalak-e Bala, Karaj, Iran
H. Kordani, Barkha Chaplot, P. Rasouli Dehkharghani and H. M. Azamathulla
- 4584 Measurements of boron concentration from rivers in northern Basrah Governorate using SSNTDs
Mostafa A. Algrifi and Thaeer M. Salman
- 4594 Illegal connection detection in a viscoelastic pipeline using inverse transient analysis in the time domain
Ehsan Ebrahimi, Mahmood Shafai Bejestan and Babak Aminnejad
- 4606 Spatiotemporal characteristics analysis of water saving potential and economic effectiveness of rainwater harvesting system in China
Chen Shiguang, Zhang Yu, Lin Xinkuang and Lu Xiaochun
- 4624 Proposal to reduce potable water consumption in a metallurgical industry in the metropolitan region of Curitiba city – case study
Wellington T. Gil, Pablo D. Valle and Fernando Deschamps
- 4639 The hydraulic investigation of inflatable weirs
S. Behnam Sarvarinezhad, Mahmoud Bina, Ehsan Afaridegan, Abbas Parsaie and Fatemeh Avazpour
- 4656 Impacts of reservoir operation and urbanization on flood inundation in the Vu Gia Thu Bon Basin, Vietnam
Thuy Nga To, Huy Cong Vu and Hung Le
- 4676 Numerical simulation and application of soft computing in estimating vertical drop energy dissipation with horizontal serrated edge
Mohammad Bagherzadeh, Farhad Mousavi, Mohammad Manafpour, Reza Mirzaee and Khosrow Hoseini
- 4690 Jet flow in hydraulic-jump-stepped spillways: experimental study
Yu Zhou, Jianhua Wu, Fei Ma, Jianyong Hu and Jianfen Zhou
- 4700 Evaluation of the measurement performance of water meters depending on water quality
Corinna Kroner, Başak Akselli, Miroslava Benková, Alexander Borchling, Oliver Bükler, Nikki Christoffersen, Jan Pavlas, Daniel Schumann, Veit Seypka, Bülent Ünsal and Heiko Warnecke
- 4716 Nitrosodiethylamine removal performance of modified activated carbon
Jiangang Lu, Haisheng Cai, Yanmei Fu and Xianluo Shi
- 4728 Study of domestic water consumption in intermittent supply of the Riberas de Sacramento sector in Chihuahua, Mexico
Carlos David Mendoza García and Carmen Julia Navarro Gómez
- 4744 Experimental investigation of the abnormal rise of water-wings downstream of a step-type aerator
Hu Han, Huang Guobing, Wang Zhixin and Huang Lu
- 4756 Corrigendum: *Water Supply* 22 (2), 1557–1574: Experimental and numerical investigation of flow over a spillway bend with different combinations of permeable spur dikes, Jinmeng Yang, Zhenzhong Shen, Jing Zhang, Xiaomin Teng, Wenbing Zhang and Jie Dai, doi: [10.2166/ws.2021.335](https://doi.org/10.2166/ws.2021.335)
