Water Science and Technology

Volume 60, Number 2

Contents

273 Feasible adaptation strategies for increased risk of flooding in cities due to climate change
K. Arnbjerg-Nielsen and H. S. Fleischer

283 Tight coupling 2D integrated urban inundation model on GIS to a high-density area, South Korea
S. H. Kang

293 Cadmium biosorption by non-living aquatic macrophytes *Egeria densa*
A. N. Módenes, J. M. T. de Abreu Pietrobelli and F. R. Espinoza-Quíñones

301 Modeling nitrogen removal in a constructed wetland treatment system
P. G. Sonavane and G. R. Munavalli

311 Receptivity to transformative change in the Dutch urban water management sector

321 From a black-box to a glass-box system: the attempt towards a plant-wide automation concept for full-scale biogas plants
J. Wiese and R. König

329 Surface modification of zeolite with β-cyclodextrin for removal of p-nitrophenol from aqueous solution
Xiaohong Li, Kun Zhu and Xuekui Hao

339 Use of near infrared spectroscopy in monitoring of volatile fatty acids in anaerobic digestion
H. Fabian Jacobi, Christian R. Moschner and Eberhard Hartung

347 Multi-electrode microbial fuel cell with horizontal liquid flow
V. Fedorovich, S. D. Varfolomeev, A. Sizov and I. Goryanin

357 Zinc(II) desorption by *Sargassum filipendula* biomass in batch and in fixed-bed column for multiple sorption-regeneration cycles
Araceli A. Seolatto, Maurício M. Câmara, Eneida S. Cossich, Célia R. G. Tavares and Edson A. Silva

363 A systematic approach to data-driven modeling and soft sensing in a full-scale plant
M. H. Kim, Y. S. Kim, A. A. Prabu and C. K. Yoo

371 Treatment of winery wastewater with an anaerobic rotating biological contactor
Th. Arnaud

381 Microbial culture dynamics and chromium (VI) removal in packed-column microcosm reactors
Pulane E. Molokwane and Evans M. Nkhalambayausi-Chirwa
The study of diagnostic techniques for the sources of *Escherichia coli* at Ta-An Beach
Hoei-Yuan Hwang and Hung-Yuan Fang

Virus removal by unsaturated wastewater filtration: effects of biofilm accumulation and hydrophobicity

Benchmarking of control strategies for ATAD technology: a first approach to the automatic control of sludge treatment systems
J. A. Zambrano, M. Gil-Martinez, M. Garcia-Sanz and I. Irizar

Roof-harvested rainwater for potable purposes: application of solar disinfection (SODIS) and limitations
Muhammad Tahir Amin and Mooyoung Han

Tannery wastewater pre-treatment
Mahmoud Abdel-Shafy Elsheikh

Influence of surface chemistry and structure of activated carbon on adsorption of fulvic acids from water solution
L. A. Savchyna, I. P. Kozyatnyk, T. V. Poliakova and N. A. Klymenko

An analytical procedure for the determination of different therapeutic drugs in surface waters
Irena Baranowska and Bartosz Kowalski

Online monitoring of OUR, *K* *a* and OTE indicators: practical implementation in full-scale industrial WWTPs
I. Irizar, J. A. Zambrano, D. Montoya, M. De Gracia and R. García

Synthesis of carboxylated chitosan and its adsorption properties for cadmium (II), lead (II) and copper (II) from aqueous solutions
K. L. Lv, Y. L. Du and C. M. Wang

RTC simulations on large branched sewer systems with SmaRTControl
Kees de Korte, Dick van Beest, Marcel van der Plaat, Erno de Graaf and Niels Schaart

Phosphorus removal in laboratory-scale unvegetated vertical subsurface flow constructed wetland systems using alum sludge as main substrate
A. O. Babatunde and Y. Q. Zhao

Combined treatment of leachate from sanitary landfill and municipal wastewater by UASB reactors
Patricia Torres, Jenny A. Rodriguez, Luz E. Barba, Luis F. Marmolejo and Carlos A. Pizarro

Proposing a method for online permeability monitoring in membrane bioreactors
A. Joss, M. Böhlé, D. Wedi and H. Siegrist

Experience with the design and start up of two full-scale UASB plants in Brazil: enhancements and drawbacks

Nitrate removal using *Brevundimonas diminuta* MTCC 8486 from ground water
S. Kavitha, R. Selvakumar, M. Sathishkumar, K. Swaminathan, P. Lakshmanaperumalsamy, A. Singh and S. K. Jain

Characterization of screenings from three municipal wastewater treatment plants in the Region Rhône-Alpes
R. Le Huyar, J.-P. Canler, B. Barillon, P. Naquin and R. Gourdon

Climate change impacts on activated sludge wastewater treatment: a case study from Norway
Benedek Gy. Plósz, Helge Liltved and Harsha Ratnaweera
