Water Science and Technology

Volume 62, Number 1

Contents

1 Kinetic studies on the degradation of crystal violet by the Fenton oxidation process
H. Wu, M. M. Fan, C. F. Li, M. Peng, L. J. Sheng, Q. Pan and G. W. Song

8 Acetate uptake by PHA-accumulating and non-PHA-accumulating organisms in activated sludge from an aerobic sequencing batch reactor fed with acetate
M. Oshiki, H. Satoh and T. Mino

15 Coal cinder filtration as pretreatment with biological processes to treat pharmaceutical wastewater
Wei Zheng, Xiao-ming Li, Zhi-ming Hao, Dong-bo Wang, Qi Yang and Guang-ming Zeng

21 Considerations on the importance of nutrition habits for the national nitrogen balance of Austria
Matthias Zessner, Simon Thaler, Katerina Ruzicka, Stephanie Natho and Helmut Kroiss

28 Concentration effect of copper loading on the reductive dechlorination of tetrachloroethylene by zerovalent silicon
Chun-chi Lee and Ruey-an Doong

36 Factors affecting economies of scale in combined sewer systems
Max Maurer, Martin Wolfram and Herlyn Anja

42 Decomposition and biodegradability enhancement of textile wastewater using a combination of electron beam irradiation and activated sludge process
Norlirubayah Mohd Nasir, Ting Teo Ming, Fakhru’l-Razi Ahmadun and Shafreeza Sobri

48 Land application of sewage sludge (biosolids) in Australia: risks to the environment and food crops
D. L. Pritchard, N. Penney, M. J. McLaughlin, H. Rigby and K. Schwarz

58 A waste load allocation method based on unfairness factors and its application in the Zhangweinan Watershed, northern China
Ruzhi Qiu, Yingxia Li, Zhifeng Yang, Chunhui Li, Jingshan Yu and Jianghong Shi

66 Cladophora in the Great Lakes: impacts on beach water quality and human health
M. P. Verhougstraete, M. N. Byappanahalli, J. B. Rose and R. L. Whitman

77 Degradation of water polluted with used cooking oil by solar photolysis, Fenton and solar photo Fenton
J. Vergara-Sánchez and S. Silva-Martínez

85 Chlorination by-products of fenitrothion
M. Kishida, T. Kumabe, H. Takanashi, T. Nakajima, A. Ohki, Y. Miyake and T. Kameya

92 Groundwater intrusion into leaky sewer systems
H. Wittenberg and H. Aksoy
99 Application of the contingent valuation method in a developing country: a case study of the Yusufeli Dam in northeast Turkey
Emre Alp and Ülku Yetiş

106 Sewer system flow components identification using signal processing
F. A. Dorval, B. Chocat, E. Emmanuel and G. Lipeme Kouyi

115 On-line measurements provide more accurate estimates of nutrient loading: a case of the Yläneenjoki river basin, southwest Finland
J. Koskiaho, A. Lepistö, S. Tattari and T. Kirkkala

123 Strategies to mitigate diffuse phosphorus pollution during rewetting of fen peat soils
R. Meissner, H. Rupp, J. Seeger and P. Leinweber

132 Effect of substrate feeding on viscosity evolution of anaerobic granular sludges
A. Pevere, P. d'Abzac, E. van Hullebusch, P. N. L. Lens and G. Guibaud

140 Evaluation of dual-mode rainwater harvesting system to mitigate typhoon-induced water shortage in Taiwan
M. M. Islam, F. N.-F. Chou and C.-H. Liaw

148 Establishment of sustainable water supply system in small islands through rainwater harvesting (RWH): case study of Guja-do
Mooyoung Han and Jaehong Ki

154 Monitoring endocrine activity in kraft mill effluent treated by aerobic moving bed bioreactor system
S. Chamorro, G. Pozo, M. Jarpa, V. Hernandez, J. Becerra and G. Vidal

162 Transitioning to a waterways city: municipal context, capacity and commitment
P. J. Morison, R. R. Brown and C. Cocklin

172 Improving the performance of membrane bioreactors by powdered activated carbon dosing with cost considerations
W. Yang, M. Paetkau and N. Cicek

180 The combined use of MODFLOW and precipitation-runoff modeling to simulate groundwater flow in a diffuse-pollution prone watershed
A. Elçi, D. Karadas and O. Fistikoglu

189 Flood risk modelling based on tangible and intangible urban flood damage quantification
J. A. E. ten Veldhuis and F. H. L. R. Clemens

196 Comparison of three methods to concentrate Giardia cysts and Cryptosporidium oocysts from surface and drinking waters
Helmi Karim, Skraber Sylvain, Leblanc Laurence, Hoffmann Lucien and Cauchie Henry-Michel

202 Trimetallic Pd/Fe/Al particles for catalytic dechlorination of chlorinated organic contaminants
Chang-Chieh Huang and Hsing-Lung Lien

208 Modeling and optimization of acid dye manufacturing wastewater treatment with Fenton’s reagent: comparison with electrocoagulation treatment results and effects on activated sludge inhibition
Idil Arslan-Alaton, B. Hande Gürsoy, Abdurahman Ak yol, Mehmet Kobya and Mahmut Bayramoglu

217 Cryptosporidium spp. and Giardia spp. in surface water supply of Campinas, Southeast Brazil
Romeu Cantusio Neto, Luciana Urbano dos Santos, Maria Ines Zanoli Sato and Regina Maura Bueno Franco
