Water Science and Technology

Volume 66, Number 9

Contents

1825  Interactions of inorganic oxide nanoparticles with sewage biosolids
      Jeff Rottman, Farhang Shadman and Reyes Sierra-Alvarez

1832  Odour emission ability (OEA) and its application in assessing odour removal efficiency
      Xinguang Wang, Gavin Parcsi, Eric Sivret, Hung Le, Bei Wang and Richard M. Stuetz

1838  Anaerobic digestion of corn ethanol thin stillage in batch and by high-rate down-flow fixed film reactors
      A. Wilkinson and K. J. Kennedy

1846  Biochemical methane potential (BMP) of agro-food wastes from the Cider Region (Spain)
      P. P. Nieto, D. Hidalgo, R. Irusta and D. Kraut

1853  Removal of mercaptans from a gas stream using continuous adsorption-regeneration
      M. G. Conti-Ramsden, H. M. A. Asghar, S. N. Hussain, E. P. L. Roberts and N. W. Brown

1860  Removal of trace organic chemical contaminants by a membrane bioreactor
      T. Trinh, B. van den Akker, R. M. Stuetz, H. M. Coleman, P. Le-Clech and S. J. Khan

1868  The usability of digestate in organic farming
      L. J. Clements, A. M. Salter, C. J. Banks and G. M. Poppy

1875  Biological oxidation of sulphides by microorganisms present in the scum layer of UASB reactors treating domestic wastewater

1883  A strategy for reducing pollutants at source in order to obtain sustainable agricultural recycling of wastewater sludge
      A. Mattsson, J. Mattsson and F. Davidsson

1889  ADM1 performance using SS-OFMSW with non-acclimated inoculums
      M. El-Fadel, R. Maroun, R. Bou Fakher Eldeen and S. Ghanimeh

1897  Seasonally loaded waste stabilisation ponds: a novel application for intermittent discharge
      C. P. Whalley, S. Heaven, C. J. Banks and A. M. Salter

1904  Enhancement of nitrate removal in synthetic groundwater using wheat rice stone
      Siqi Hong, Jianmei Zhang, Chuanping Feng, Baogang Zhang and Puxi Ma

1912  Biofiltration of H₂S with reclaimed water as a nutrient/moisture source at loading rates from 10 to 300 g H₂S m⁻³ h⁻¹
      Peter Fox and David Locher

1918  Performance evaluation and effect of biogas circulation rate of a bubble column for biological desulfurization
      Takuro Kobayashi, Kai-Qin Xu, Yu-You Li and Yuhei Inamori
1927 Nutrient and trace element supply in AD plants and effect of trace element application
H. Lindorfer, D. Ramhold and B. Frauz

1934 Influence of photoperiod on carbon dioxide and methane emissions from two pilot-scale stabilization ponds
Juan P. Silva, José L. Ruiz, Miguel R. Peña, Henk Lubberding and Huub Gijzen

1945 Recent advances in structure and reactivity of dissolved organic matter: radiation chemistry of non-isolated natural organic matter and selected model compounds
Shakiba Ayatollahi, Daina Kalnina, Weihua Song, Barbara A. Cottrell, Michael Gonsior and William J. Cooper

1954 Development of a horizontal subsurface flow modular constructed wetland for urban runoff treatment

1962 Biofiltration of hydrogen sulfide by Sulfolobus metallicus at high temperatures

1966 Measurement and mathematical modelling of nutrient level and water quality parameters
M. Kashefi Alasl, M. Khosravi, M. Hosseini, G. R. Pazuki and R. Nezakati Esmail Zadeh

1972 Selective separation of Cr(III) and Fe(III) from liquid effluents using a chelating resin
Sandra Fernandes, Inês S. Romão, Carlos M. R. Abreu, Margarida J. Quina and Licínio M. Gando-Ferreira

1981 Water quality in a surface-flow constructed treatment wetland polishing tertiary effluent from a municipal wastewater treatment plant
Marc W. Beutel

1988 Sediment dynamics in shallow Lake Markermeer, The Netherlands: field/lab surveys and first results for a 3-D suspended solids model
P. Kelderman, P. De Rozari, S. Mukhopadhyay and R. O. Ang’weya

1995 Volatilization of hydrogen sulfide from a quiescent surface
Rita de Cassia Feroni, Jane Meri Santos and Neyval Costa Reis Jr

2001 A horizontal flow biofilm reactor (HFBR) technology for the removal of methane and hydrogen sulphide at low temperatures
C. Kennelly, E. Clifford, S. Gerrity, R. Walsh, M. Rodgers and G. Collins

2011 Participatory and decentralized water resources management: challenges and perspectives for the North Paraíba River Basin committee – Brazil
M. A. F. M. Ribeiro, Z. M. C. L. Vieira and M. M. R. Ribeiro

2018 Performance of a modified RBC system in simulated municipal wastewater treatment

2024 Removal of volatile organic compounds by heterogeneous ozonation on microporous synthetic alumina silicate
Nicolas Brodu, Hicham Zaitan, Marie-Hélène Manero and Jean-Stephane Pic

2031 Removal of Cu(II) ions from aqueous solutions using N-carboxymethyl chitosan
C. X. Wang and Q. P. Song

2037 Estimating the recreational carrying capacity of a lowland river section
Stefan Lorenz and Martin T. Pusch
