

# Water Science and Technology

Volume 68, Number 11

## Contents

- 2317 Steroid oestrogens in the environment: an Australian perspective  
**Sarah Sutcliffe, Bradley O. Clarke and Oliver A. H. Jones**
- 2330 Kinetics of aerobic oxidation of volatile sulfur compounds in wastewater and biofilm from sewers  
**E. A. Rudelle, J. Vollertsen, T. Hvitved-Jacobsen and A. H. Nielsen**
- 2337 Temperature, plant species and residence time effects on nitrogen removal in model treatment wetlands  
**C. R. Allen, O. R. Stein, P. B. Hook, M. D. Burr, A. E. Parker and E. C. Hafila**
- 2344 Use of seawater for the boron-doped diamond electrochemical treatment of diluted vinasse wastewater  
**V. M. Daskalaki, H. Marakas, D. Mantzavinos, A. Katsaounis and P. Gikas**
- 2351 *In-situ* growth of monodispersed Fe<sub>3</sub>O<sub>4</sub> nanoparticles on graphene for the removal of heavy metals and aromatic compounds  
**Hai-Xia Wu, Jia-Wei Wu, Zhi-Gang Niu, Xiu-Li Shang and Jun Jin**
- 2359 An almost-parameter-free harmony search algorithm for groundwater pollution source identification  
**Simin Jiang, Yali Zhang, Pei Wang and Maohui Zheng**
- 2367 Fe<sub>3</sub>O<sub>4</sub> nanoparticles as an efficient heterogeneous Fenton catalyst for phenol removal at relatively wide pH values  
**Wei Wang, Qiong Mao, Huanhuan He and Minghua Zhou**
- 2374 Combination of microalgae cultivation with membrane processes for the treatment of municipal wastewater  
**Lu Chen, Jiang Wei, Weiguo Wang and Cunwen Wang**
- 2382 Modeling low impact development potential with hydrological response units  
**Marija Eric, Celia Fan, Darko Joksimovic and James Y. Li**
- 2391 The effect of direct addition of iron(III) on anaerobic digestion efficiency and odor causing compounds  
**Chang Min Park and John T. Novak**
- 2397 Hydraulics characteristics of tipping sediment flushing gate  
**C. H. J. Bong, T. L. Lau and A. Ab. Ghani**
- 2407 Analyzing the spatial and temporal characteristics of membrane fouling  
**A. G. Agwu Nnanna, Jinsong Yu and Ishita Biswas**
- 2414 Distribution of polycyclic aromatic hydrocarbons in coke plant wastewater  
**Piotr Burmistrz and Michał Burmistrz**
- 2421 Reverse osmosis concentrate treatment by chemical oxidation and moving bed biofilm processes  
**S. M. R. Vendramel, A. Justo, O. González, C. Sans and S. Esplugas**

- 2427 Quantitative estimation of groundwater recharge ratio along the riparian of the Yellow River  
**Zhang Yan, Li Fadong, Li Jing, Liu Qiang and Zhao Guangshuai**
- 2434 Influence of process parameters on phosphorus recovery by struvite formation from urine  
**Xiaoning Liu, Zhengyi Hu, Chunyou Zhu, Guoqi Wen, Xianchao Meng and Jia Lu**
- 2441 Degradation of Orange II in aqueous solution by a novel electro/Fe<sub>3</sub>O<sub>4</sub> process  
**Heng Lin, Liwei Hou and Hui Zhang**
- 2448 Analysing urban resilience through alternative stormwater management options: application of the conceptual Spatial Decision Support System (DS3) model at the neighbourhood scale  
**M. Balsells, B. Barroca, J. R. Amdal, Y. Diab, V. Becue and D. Serre**
- 2458 Large-scale hydropower system optimization using dynamic programming and object-oriented programming: the case of the Northeast China Power Grid  
**Ji-Qing Li, Yu-Shan Zhang, Chang-Ming Ji, Ai-Jing Wang and Jay R. Lund**
- 2468 Quantification of *Helicobacter pylori* in the viable but nonculturable state by quantitative PCR (qPCR) in water disinfected with ozone  
**B. Casasola-Rodríguez, M. T. Orta de Velásquez, V. G. Luqueño-Martínez and I. Monje-Ramírez**
- 2473 Adsorptive removal of trace oxytetracycline from water by acid-modified zeolite: influencing factors  
**Wenhao An, Hua Xiao, Man Yu, Xiaoyang Chen, Yuxin Xu and Wenmin Zhou**
- 2479 The photoconversion of gamma-hexachlorocyclohexane under UV irradiation in water, snow and ice  
**Honghai Xue, Xiaojian Tang, Chunli Kang, Jia Liu, Lei Shi, Hongliang Wang and Ting Yang**
- 2485 Blue and grey water footprint of textile industry in China  
**Laili Wang, Xuemei Ding and Xiongying Wu**
- 2492 Suitability of ozone pre-treatment for amoxicillin wastewater  
**O. Lefebvre, X. Shi, J. G. Tein and H. Y. Ng**
- 2497 Copper(II) removal from aqueous solutions by adsorption on non-treated and chemically modified cactus fibres  
**M. Prodromou and I. Pashalidis**
- 2505 Lipid profile characterization of wastewaters from different origins  
**E. Efimova, J. M. Marjakangas, A.-M. Lakaniemi, P. E. P. Koskinen and J. A. Puhakka**
- 2515 Decolorization of Crystal Violet by ultrasound/heterogeneous Fenton process  
**Hui Zhang, Hong Gao, Chun Cai, Chunyang Zhang and Lu Chen**
