

Water Science and Technology

Volume 69, Number 7

Contents

- 1359 Opportunities for microbial electrochemistry in municipal wastewater treatment – an overview
Oskar Modin and David J. I. Gustavsson
- 1373 Instrumentation, control and automation in wastewater – from London 1973 to Narbonne 2013
G. Olsson, B. Carlsson, J. Comas, J. Copp, K. V. Gernaey, P. Ingildsen, U. Jeppsson, C. Kim, L. Rieger, I. Rodríguez-Roda, J.-P. Steyer, I. Takács, P. A. Vanrolleghem, A. Vargas, Z. Yuan and L. Åmand
- 1386 Experiences with anaerobic treatment of fat-containing food waste liquids: two full scale studies with a novel anaerobic flotation reactor
C. T. M. J. Frijters, T. Jorna, G. Hesselink, J. Kruit, D. van Schaick and R. van der Arend
- 1395 Improving aeration control at the Ljubljana wastewater treatment plant
D. Vrečko, U. Zupančič and R. Babič
- 1403 Membrane fouling and performance evaluation of conventional membrane bioreactor (MBR), moving biofilm MBR and oxic/anoxic MBR
Sher Jamal Khan, Aman Ahmad, Muhammad Saqib Nawaz and Nicholas P. Hankins
- 1410 Performance of a pilot-scale constructed wetland for stormwater runoff and domestic sewage treatment on the banks of a polluted urban river
Weijie Guo, Zhu Li, Shuiping Cheng, Wei Liang, Feng He and Zhenbin Wu
- 1419 Protein from preprocessed waste activated sludge as a nutritional supplement in chicken feed
Evans M. N. Chirwa and Moses T. Lebitso
- 1426 Evaluating odour control technologies using reliability and sustainability criteria – a case study for water treatment plants
N. J. R. Kraakman, J. M. Estrada, R. Lebrero, J. Cesca and R. Muñoz
- 1434 Intensification of flotation treatment by exposure to vibration
M. V. Ivanov and B. S. Ksenofontov
- 1440 Particle retention in compact constructed wetlands treating highway stormwater
Yaoping Chen, Kisoo Park and Youngchul Kim
- 1447 Computational fluid dynamics analysis in microbial fuel cells with different anode configurations
Jiyeon Kim, Hongsuck Kim, Byunggoon Kim and Jaecheul Yu
- 1453 Treatment of olive mill wastewater by chemical processes: effect of acid cracking pretreatment
B. Hande Gursoy-Haksevenler and Idil Arslan-Alaton
- 1462 Effect of hydraulic retention time and seed material on phosphorus recovery and crystal size from urine in an air-agitated reactor
Xiaoning Liu, Zhengyi Hu, Jinzhi Wang and Guoqi Wen

- 1469 Fast start-up of expanded granular sludge bed (EGSB) reactor using stored Anammox sludge
Zhang Wenjie, Zhang Yuanyuan, Li Liang, Zhang Xuehong and Jin Yue
- 1475 Field leaching of alkaline copper quaternary-treated red pine lumber over 3 years: long-term dynamics
Wendong Tao
- 1482 In-depth characterization of secondary effluent from a municipal wastewater treatment plant located in Northern China for advanced treatment
Shutao Wang, Xingwen Zhang, Zhi-Wu Wang, Xiangkun Li and Jun Ma
- 1489 Adsorption of perfluorooctane sulfonate on carbon nanotubes: influence of pH and competitive ions
Yue Bei, Shubo Deng, Ziwen Du, Bin Wang, Jun Huang and Gang Yu
- 1496 A novel electrospun polyurethane nanofibre membrane – production parameters and suitability for wastewater (WW) treatment
Jaroslav Lev, Marek Holba, Michal Došek, Libor Kalhotka, Přemysl Mikula and Dušan Kimmer
- 1502 Behaviour of different cementitious material formulations in sewer networks
J. Herisson, M. Guéguen-Minerbe, E. D. van Hullebusch and T. Chaussadent
- 1509 Membrane thickening aerobic digestion processes
Bryen Woo
- 1518 The use of bottle caps as submerged aerated filter medium
Laurence Damasceno de Oliveira, Amir Mohaghegh Motlagh, Ramesh Goel, Beatriz de Souza Missagia, Benício Alves de Abreu Filho and Sandro Rogério Lautenschlager
- 1526 Water quality and quantity assessment of pervious pavements performance in experimental car park areas
Luis A. Sañudo-Fontaneda, Susanne M. Charlesworth, Daniel Castro-Fresno, Valerio C. A. Andres-Valeri and Jorge Rodriguez-Hernandez
- 1534 Novel application of bamboo-based fibers in a biological contact oxidation process
Xiaoming Zou, Yi Feng, Changming Sheng, Jia Liu, Lijun Lu, Cui Hu and Xiangfeng Huang
- 1541 Nitrogen balance and transformation in the nitrification process of coking wastewater and the influence on nitrification kinetics
Mingjun Shan, Yan Zhang and Lihong Kou
- 1546 Study of the recovery of phosphorus from struvite precipitation in supernatant line from anaerobic digesters of sludge
Luciano Dias Xavier, Magali Christe Cammarota, Lídia Yokoyama and Isaac Volschan Junior
- 1552 Validating the Colloid model to optimise the design and operation of both moving-bed biofilm reactor and integrated fixed-film activated sludge systems
J. Albizuri, P. Grau, M. Christensson and L. Larrea
- 1558 Improving total nitrogen removal in aeration basin retrofitted with entrapped biomass
Yeong-Nan Chao, Jui-Hsien Lin, Kok-Kwang Ng, Chung-Hsin Wu, Pui-Kwan Andy Hong and Cheng-Fang Lin
- 1565 Assessment of impacts from various hydro-ecological factors on oxygen budgets of a regulated river: a case study of the Petchburi River, western Thailand
Pichasit Sangmek and Charumas Meksumpun
- 1573 Lessons learnt from evaluating full-scale ammonium feedback control in three large wastewater treatment plants
L. Åmand, C. Laurell, K. Stark-Fujii, A. Thunberg and B. Carlsson
- 1581 Anaerobic treatment of urban wastewater in membrane bioreactors: evaluation of seasonal temperature variations
J. B. Giménez, N. Martí, A. Robles, J. Ferrer and A. Seco
