Water Science and Technology

Volume 72, Number 5

Contents

663 Responsible innovation in port development: the Rotterdam Maasvlakte 2 and the Dalian Dayao Bay extension projects
Wim Ravesteijn, Yi Liu and Ping Yan

676 A review: factors affecting excess sludge anaerobic digestion for volatile fatty acids production
Dong Zhang, Xiaoshuai Li, Shuting Jia, Lingling Dai, Jianfu Zhao, Yinguang Chen and Xiaohu Dai

687 Effects of poly aluminum chloride dosing positions on the performance of a pilot scale anoxic/oxic-membrane bioreactor (A/O-MBR)
Shaodong Guo, Fangshu Qu, An Ding, Langming Bai, Guibai Li, Hsu Hao Ngo, Wenshan Guo and Heng Liang

694 Catalytic ozonation of bisphenol A in aqueous solution using Mn-Ce/HZSM-5 as catalyst
Yanfang Liu, Junna Zhao, Zaixing Li, Guixia Li, Wei Li and Xiang Gao

702 Floating wetland islands as a method of nitrogen mass reduction: results of a 1 year test
Rafael Vázquez-Burney, James Bays, Ryan Messer and Jeffrey Harris

709 Comparative study of isotherm parameters of lead biosorption by two wastes of olive-oil production
G. Blázquez, A. Ronda, M. A. Martín-Lara, A. Pérez and M. Calero

719 Optimizing adsorption of Cr(VI) from aqueous solutions by NiO nanoparticles using Taguchi and response surface methods
Nasim Ziaeifar, Morteza Khosravi, Mohammad A. Behnajady, Mahmood R. Sohrabi and Nasser Modirshahla

728 Abatement vs. treatment for efficient diffuse source water pollution management in terrestrial-marine systems
P. C. Roebeling, M. C. Cunha, L. Arroja and M. E. van Grieken

736 Inhibition of biofouling by modification of forward osmosis membrane using quaternary ammonium cation
Kang-Hee Park, Sang-Hyun Yu, Han-Shin Kim and Hee-Deung Park

744 Investigation of photo-assisted and crude peroxidase mediated transformations of chlorinated phenols (CPs) from spiked and industrial wastewaters: identification of reaction products
Swati Sharma, Mausumi Mukhopadhyoy and Z. V. P. Murthy

752 Bioaugmentation treatment of PV wafer manufacturing wastewater by microbial culture
Xiaohua Zhu, Maoxia Chen, Xin He, Zili Xiao, Houzhen Zhou and Zhouliang Tan

760 Flotation of algae for water reuse and biomass production: role of zeta potential and surfactant to separate algal particles
Dong-Heui Kwak and Mi-Sug Kim

768 Effects of mixed liquor pH on membrane fouling and micro-pollutant removals in membrane bioreactors for municipal landfill leachate treatment
Samunya Sanguanpak, Chart Chiemchaisri, Wilai Chiemchaisri and Kazuo Yamamoto
777 Sorption of microconstituents onto primary sludge
Zhu Ying and R. L. Droste

783 Desalination of simulated seawater by purge-air pervaporation using an innovative fabricated membrane
Mona Naim, Mahmoud Elewa, Ahmed El-Shafei and Abeer Moneer

792 Decolorization and biogas production by an anaerobic consortium: effect of different azo dyes and quinoid redox mediators
P. Gortáres-Moroyoqui

800 Removal of hydrocarbons from synthetic road runoff through adsorptive filters
Andreas Vesting, Eva Heinz, Brigitte Helmreich and Marc Wichern

808 Examination of Pb$^{2+}$ bio-sorption onto Rhodotorula mucilaginosa using response surface methodology
Bin-hui Jiang, Yan Zhao, Xin Zhao, Xiao-min Hu and Li Li

815 Vertical flow constructed wetlands subject to load variations: an improved design methodology connected to outlet quality objectives
C. Boutin and S. Prost-Boucle

822 Distributions of phosphorus fractions in the sediments of a river–lake system: a case study in Huai River catchment area, China
Piao Jingqiu, Tang Changyuan and Song Xianfang

833 Erratum: *Water Science and Technology* 71 (8), 1241–1248: Long-term performance of side-stream deammonification in a continuous
flow granular-activated sludge process for nitrogen removal from high ammonium wastewater, Babak Rezania, Donald S. Mavinic and
Harlan G. Kelly
