Water Science and Technology

Volume 80, Number 1

Contents

1 Is ceramsite the last straw for sewage sludge disposal: a review of sewage sludge disposal by producing ceramsite in China
   Bifan He and Guangjin Wang

11 Assessment of distributed hydrological model performance for simulation of multi-heavy-metal transport in Harrach River, Algeria
   Saadia Bouragba, Katsuaki Komai and Keisuke Nakayama

25 Ozonation process intensification of p-nitrophenol by in situ separation of hydroxyl radical scavengers and microbubbles
   Wen Cheng, Li Jiang, Xuejun Quan, Chen Cheng, Xiaoxue Huang, Zhiliang Cheng and Lu Yang

37 Effect of operating conditions on N₂O production in an anammox sequencing batch reactor containing granular sludge
   Tiago Duarte Santos Pereira, Carla Eloisa Diniz dos Santos, Xi Lu, Hussein E. Al-Hazmi, Joanna Majtacz, Eduardo Cleto Pires,
   Márzia Helena Rissato Zamariloli Diamanovici and Jacek Makinia

48 Determination of the just suspended speed for solid particle in torus reactor
   Ali Alouache, Ammar Selatnia, Abdelouhab Lefkir, Farid Halet, Houssem Eddine Sayah and Boubekra Nadjem

59 Design and performance of a coarse media, high hydraulic load polishing wetland for steel industry wastewater
   Viet Anh Nguyen, Minh Phuong Nguyen, Karin Tonderski, Hai Do Thi and Anh Thi Kim Bui

67 Reduction of scum accumulation through the addition of low-cost enzymatic extract in the feeding of high-rate anaerobic reactor
   Juliana Lemos Soares, Magali Christe Cammarota, Melissa Limoeiro Estrada Gutarras and Isaac Volschan Jr

75 Economic assessment of aerated constructed treatment wetlands using whole life costing
   A. I. Freeman, S. Widdowson, C. Murphy and D. J. Cooper

86 Preparation of nitric acid modified powder activated carbon to remove trace amount of Ni(II) in aqueous solution
   Peidong Su, Junke Zhang, Jiawei Tang and Chunhui Zhang

98 Taguchi design of optimum process parameters for sorption of copper ions using different sorbents
   Sandra Sviloči, Mario Nikola Mužek, Ivona Nuič and Petra Vůčenovič

109 Fabrication of novel particle electrode γ-Al₂O₃@ZIF-8 and its application for degradation of Rhodamine B
    Liguio Zhang, Caixia Ma, Lei Liu, Jingshi Pan and Qilin Wang

117 Removal of phosphate by Donnan dialysis coupled with adsorption onto calcium alginate beads
    Ikhlass Marzouk Trifié, Beyram Trifié, Sirine Ben Ayed and Béchir Hamrouni

126 Removal of cyanide in aqueous solution by oxidation with hydrogen peroxide catalyzed by copper oxide
    Hamza Amaouche, Salima Chergui, Farid Halet, Ahmed Rêda Yeddou, Abdelmalek Chergui, Boubekeur Nadjemi and Aïssa Ould-Dris
134  Determination of the color removal efficiency of laccase enzyme depending on dye class and chromophore  
Deniz İzlen Çifçi, Rıza Atav, Yağış Günes and Elçin Günes

144  Confirmation the optimal aeration parameters for nitrogen removal and nitrous oxide emission in wastewater ecological soil  
infiltration systems with brown earth  
Yafei Sun, Junling Pang, Shiyao Wang, Tingting Tao, Xun Fu, Ying Zhang, Bo Sun and Jing Pan

153  Preparation of sustainable non-combustion filler substrate from waterworks sludge/aluminum slag/gypsum/silica/maifan stone for  
phosphorus immobilization in constructed wetlands  
Guanghui Wang, Jingqing Gao, Rongxue Yang, Jingshen Zhang, Han Guo and Jianlei Gao

164  Effect of Cu(II) on adsorption of tetracycline by natural zeolite: performance and mechanism  
Xuan Guo, Pengchao Wang, Peng Li and Chengjun Zhang

173  Improving operational management of wastewater systems. A case study  
A. Pereira, J. L. S. Pinho, R. Faria, J. M. P. Vieira and C. Costa

184  Efficacy of an electrochemical flow cell introduced into the electrochemical Fenton-type process using a Cu(I)/HOCl system  
Naoyuki Kishimoto, Saki Ito, Masaaki Kato and Hideo Otsu

191  Particular internal recirculation frequency scope for enhancing denitrifying phosphorus removal in an oxidation ditch  
Shao Po Wang, Jing Jie Yu, Fan Kai Su, Fu Gao and Li Ping Sun
